herein shall remain in effect on all remaining non-recorded plat overlay areas until such time, if ever, that the plats have been recorded in such a manner that the temporary easement area is no longer necessary due to the approval and recordation of the permanent easements which are depicted within the areas of dedicated right of way and referenced within the approved, recorded plats. The Easement hereby granted will automatically terminate, without further action of Grantor or Grantee, upon the recordation of the plats covering the described Easement area.

This Easement is granted subject to the following rights, covenants and restrictions:

1. During temporary periods, the Grantee shall have the right to utilize such portion of Grantor's property situated along and adjacent to the Easement Property as described herein as shall be reasonably necessary in connection with the initial construction and installation of the Utility Lines.

2. Grantor's construction and operational activities related to its use of the Easement Property as provided herein shall be performed in compliance with all applicable requirements of other governmental entities having jurisdiction.

3. It is understood and agreed that the Easement set forth herein gives, grants and conveys to Grantee the right of ingress and egress to and upon the Easement Property for the purposes set forth herein.

4. Within a reasonable time following completion of construction of any improvements associated with the Utility Lines within the Easement Property, subject to suitable weather and/or soil conditions, Grantee or Grantor (depending on which party conducted said work), at its expense, shall reasonably restore the surface of the Easement Property or any other property of Grantor disturbed by Grantee during construction, as near as practicable to its pre-construction condition.

5. Grantor reserves the right to use and enjoy the Easement Property subject to this Easement and Grantee's rights hereunder and so long as Grantor shall not construct any permanent buildings or other structures or improvements, or plant any trees or shrubs whose roots would contact Grantee's pipeline equipment and facilities, or otherwise do anything or take any action which would unreasonably obstruct or interfere in any way with the Grantee's rights to the use of the Easement Property and Grantee's rights of ingress or egress as herein set forth. Grantor shall not change the contour of the ground within the Easement Property without the prior written consent of the Grantee.

6. Grantor expressly acknowledges and agrees that Grantee shall have the unilateral right, without notice or compensation to the Grantor, to physically remove any structure or other obstruction,

and to cut and keep clear all trees, brush, native growth or foliage, which are now or may hereafter be situated within the Easement Property that may, in the Grantee's sole opinion, endanger, hinder or conflict with its rights hereunder. Grantee shall have no liability for any damage to any improvements made by Grantor to the extent such damage arises out of or in connection with Grantee's use of the Easement Property consistent with its rights hereunder.

7. The Easement and related rights granted hereunder create an equitable servitude on the Easement Property and constitute a covenant running with the land which shall be binding upon Grantor and the Grantee and their respective legal representatives, successors-in-interest and assigns.

8. This Easement, and all rights, covenants and restrictions set forth herein may not be terminated, extended, modified or amended without the consent of Grantor and Grantee, and any such termination, extension, modification or amendment shall be effective only upon recordation in the official records of Tooele County, Utah, of a written document effecting the same, duly executed and acknowledged by Grantor and Grantee.

9. By accepting delivery of and recordation of this Grant of Easement, Grantee acknowledges and agrees with the terms and provisions hereof.

IN WITNESS WHEREOF, the undersigned has executed this instrument on the date set forth below, to be effective on the recording date hereof.
