12-882- **WATER LINE AND STORM DRAIN EASEMENT AGREEMENT**  
0001 to 0008

This Water Line and Storm Drain Easement Agreement ("Easement") is made this 14 day of March, 2017, by and between Utah Transit Authority, a public transit district organized under the laws of the State of Utah ("Grantor"), and Clearfield City, a Utah municipal corporation and political subdivision of the State of Utah ("Grantee"). For good and valuable consideration, Grantor and Grantee hereby agree as follows:

Grantor hereby grants to Grantee (i) a perpetual, non-exclusive easement with respect to the Easement Area (described below), for the purpose of (a) operating, maintaining, repairing and replacing water lines and related facilities, including any building connection lines, lateral lines, and appurtenances for the transmission of water through and across the property of Grantor, and (b) operating, maintaining, repairing and replacing storm water management facilities, storm sewer lines or storm drainage lines, including any building connection lines, plus all necessary inlet structures, manholes, and appurtenances for the collection of storm waters and its transmission through and across the property of Grantor, and (ii) a temporary easement to construct, install, maintain and repair such improvements over and upon the Easement Area as Grantee deems reasonably necessary in connection with its use of the easement rights granted herein. The boundaries of the Easement Area to which this Easement applies are set forth on Exhibit "A" attached hereto and incorporated herein. Subject to the requirements described herein, Grantee, its officers, employees and agents shall have the right of reasonable ingress to and egress from the Easement Area across Grantor's property for the purpose of constructing such improvements. Such reasonable ingress and egress shall include the temporary right to use an additional perimeter area extending ten (10) feet beyond the boundaries of the Easement Area, for purposes of constructing such improvements, which right shall automatically terminate upon completion of construction of such improvements, or twenty (20) months from the date hereof, whichever is earlier. Any damage caused to the additional perimeter area during construction shall be repaired, and the property shall be restored to its pre-construction condition in a timely manner, at Grantee's sole cost and expense.

Grantor shall have the right to use the Easement Area for any and all purposes whatsoever, provided any such use shall not limit or interfere with Grantee's exercise of its easement rights as set forth herein.

Following any exercise by Grantee of any easement rights set forth herein, Grantee, at Grantee's sole cost, shall promptly restore the property of Grantor to substantially the same condition as existed prior to such exercise.

Grantee assumes all risks and responsibilities for accidents, injuries or deaths to persons or damage to property which may occur on Grantor's property in connection with Grantee's exercise of its rights set forth herein. Grantee shall indemnify, defend and hold Grantor harmless from and against any and all claims, liabilities, losses, damages and costs (including reasonable attorney fees) resulting from or in any way related to Grantee's exercise of its rights under this Easement.

Grantee acknowledges that the Easement Area may be subject to prospective purchaser agreements and covenants not to sue that Grantor has entered with the Utah Department of Environmental Quality and the United States Environmental Protection Agency. Pursuant to such agreements, Grantor is required to characterize any excavated soil that appears to contain (or has the potential to contain) Hazardous Materials and to handle and dispose of any such soil in compliance with applicable state and federal laws. Under these agreements, Grantor is not required to excavate any soil on the Easement Area. Accordingly, any excavation contemplated hereunder exposes Grantor to potential environmental liability that would not otherwise be present. As consideration for the rights granted to Grantee hereunder, Grantee agrees to assume all potential liability and responsibility for, and to indemnify and hold Grantor harmless with respect to, any losses arising because of Grantee's failure to characterize and remove any Hazardous Materials discovered during the performance of any construction or maintenance in the manner required by the above-referenced agreements. Grantee agrees to perform any such characterization and removal in full compliance with all applicable state and federal environmental laws.

IN WITNESS WHEREOF, Grantor and Grantee have executed this Easement as of the date set forth above.
