attached hereto and incorporated herein by reference.

The foregoing Easement shall further include a temporary construction easement over, across, under and through the Property, as more particularly described in Exhibit "A," as necessary for the construction and installation, from time-to-time, of the Utility Facilities. The temporary construction easement shall expire upon completion of construction of the Utility Facilities. The Grantee shall restore any of Grantor's improvements situated within the area of any temporary construction easement to their pre-construction condition as near as practicable.

This Easement is granted subject to the following rights, covenants and restrictions:

1. During temporary periods, the Grantee shall have the right to utilize such portion of Grantor's property situated along and adjacent to the Easement Property as described herein as shall be reasonably necessary in connection with the initial construction and installation of the Utility Facilities.
2. Grantee's construction and operational activities related to its use of the Easement Property as provided herein shall be performed in compliance with all applicable requirements of other governmental entities having jurisdiction.

3. It is understood and agreed that the Easement set forth herein gives, grants and conveys to Grantee the right of ingress and egress to and upon the Easement Property for the purposes set forth herein.

4. Within a reasonable time following completion of construction of any improvements associated with the Utility Facilities within the Easement Property, subject to suitable weather and/or soil conditions, Grantee, at its expense, shall reasonably restore the surface of the Easement Property or any other property of Grantor disturbed by Grantee during construction, as near as practicable to its pre-construction condition.

5. Grantor reserves the right to use and enjoy the Easement Property subject to this Easement and Grantee's rights hereunder and so long as Grantor shall not construct any permanent buildings or other structures or improvements, or plant any trees or shrubs whose roots would contact Grantee's Utility Facilities, or otherwise do any thing or take any action which would unreasonably obstruct or interfere in any way with the Grantee's rights to the use of the Easement Property and Grantee's rights of ingress or egress as herein set forth. Grantor shall not change the contour of the ground within the Easement Property without the prior written consent of the Grantee.

6. Grantor expressly acknowledges and agrees that Grantee shall have the unilateral right, without notice or compensation to the Grantor, to physically remove any structure or other obstruction, and to cut and keep clear all trees, brush, native growth or foliage, which are now or may hereafter be situated within the Easement Property that may, in the Grantee's sole opinion, endanger, hinder or conflict with its rights hereunder. Grantee shall have no liability for any damage to any improvements made by Grantor to the extent such damage arises out of or in connection with Grantee's use of the Easement Property consistent with its rights hereunder.

7. The Easement and related rights granted hereunder create an equitable servitude on the Easement Property and constitute a covenant running with the land which shall be binding upon Grantor and the Grantee and their respective legal representatives, successors-in-interest and assigns.

8. This Easement, and all rights, covenants and restrictions set forth herein may not be terminated, extended, modified or amended without the consent of Grantor and Grantee, and any such termination, extension, modification or amendment shall be effective only upon recordation in the official records of Tooele County, Utah, of a written document effecting the same, duly executed and acknowledged by Grantor and Grantee.

9. By accepting delivery of and recordation of this Grant of Easement, Grantee acknowledges and agrees with the terms and provisions hereof.
