

**DECLARATION OF PROTECTIVE COVENANTS
CONDITIONS AND RESTRICTIONS FOR
EAGLE POINT PLAT "T"**

The undersigned is the owner of the real property ("property") in the County of Utah, State of Utah, described as:

EAGLE POINT PLAT "T"

The property presently consists of 109 lots which have been recorded (See Recorded Plat (Entry # 131846:2007.))

The undersigned has deemed it desirable to provide a general plan for the development of all of the property and for the establishment of covenants upon the property and for the establishment of covenants upon the property for the purpose of enhancing and protecting the value and attractiveness of the property.

Title to all of the lots located within the property may be sold only subject to these protective covenants, conditions and restrictions as set forth below.

The undersigned hereby covenants, agrees and declares that all of the lots and property described above and such additions thereto as may hereafter be made shall be held, sold and conveyed subject to the following covenants, conditions and restrictions which are hereby declared to be for the benefit of all of the property and the owners thereof, their successors and assigns. These covenants, conditions and restrictions shall run with the property and shall be binding upon all parties having or acquiring any right, title or interest in the property or any lot or part thereof and shall inure to the benefit of each owner thereof.

ARTICLE I
DEFINITIONS

The following terms used in these covenants, conditions, and restrictions shall be applicable to this Declaration and are defined as follows:

Section 1. "Lot" shall mean and refer to a recorded lot within the existing property upon which there has been or will be constructed a single family dwelling.

Section 2. "Owner" shall mean and refer to the record owners, whether one or more persons or entities, of a fee simple title to any lot which is a part of the property, including contract buyers, but excluding those having such interest merely as security for the performance of an obligation.

Section 3. "Committee" shall mean and refer to the Eagle Point "T" Development Committee. See Article III

ARTICLE II
ARCHITECTURAL CONTROL

Section 1. Dwelling Quality and Size. No lot shall be used except for residential and related purposes. No building shall be erected, altered or permitted to remain on any lot other than one (1) single family residence not to exceed two stories in height and a private garage for not less than two nor more than four vehicles. The minimum area above ground, excluding garages and porches of a single level dwelling shall be nine hundred (900) square feet. The minimum area above ground, excluding garages and porches of a two-story dwelling shall be one thousand two hundred (1,200) square feet with the main level having a minimum area of eight hundred (800) square feet. Log homes, solar homes, or subterranean homes or buildings are not permitted. All dwellings shall be built according to the minimum architectural guidelines as outlined in Section 9. The architectural design will be as equally important as the size.

Section 2. Building Location. Any and all Structures on the lot that require a building permit from the City shall be located within the building envelope as defined in the City Standard. Owners are encouraged to use offsets of greater than what is specified on the Final Plat if the Lot can accommodate such.

Section 3. Moving of Structures. No structure of any kind shall be moved from any other place to the property without written approval of the Committee.

Section 4. Temporary Structures. No trailer, basement, tent, or shack or other outbuilding shall be placed upon or used at any time within the property as a temporary or permanent residence.

Section 5. Completion of Building. Once construction of a dwelling or any other structure has begun, work thereon must be carried out diligently and completed within twelve (12) months of the date of commencement.

Section 6. Landscaping. Owner shall complete landscaping of all front and side yards facing a street, prior to issuance of a Certificate of Occupancy. If, due to inclement weather or other reasons acceptable to the Committee, the landscaping can not be completed prior to issuance of a Certificate of Occupancy, a sum of Two Thousand Dollars (\$2,000) to complete the landscaping may be placed in escrow at Select Title Co. for a period not to exceed six (6) months. The landscaping shall include sod or green (i.e. hydro-seed, seed) for grass and an automatic sprinkler system. Owners are encouraged to use a variety of trees, shrubs, and bushes that beautify the yard and overall appearance of the neighborhood. Trees, shrubs and bushes that produce obnoxious seeds, weeds or fruit shall not be permitted.

Section 7. Compliance with Applicable Zoning Ordinances. All structures within the property shall be built, occupied and used in accordance with the provisions of

Eagle Mountain Zoning Ordinances.

Section 8. Committee Approval Required. No building or structure, including, but not limited to, shed, tennis court or swimming pool, shall be erected, remodeled or placed on the property without the prior written approval of the Committee as to location, height, design and harmony with existing structures and in compliance with the covenants, conditions and restrictions set forth herein.

Section 9. Architectural Guidelines. The following architectural guidelines shall apply to all the lots in the property affected thereby:

(a) Harmony of Exteriors: Exterior materials on the front and side elevations facing a street shall consist of hard-surface materials namely brick, stucco, or stone. Aluminum or vinyl siding (of the same color) shall be allowed on the rear elevation and side elevations not facing a street. The roofing material shall be wood shake or architectural-grade composition shingles. The use of natural earth tones will be encouraged, along with the use of wood and stone materials. Bright colors (i.e. yellow, orange, red, blue, etc.) that distract from the aesthetic quality of building set forth in these Covenants and Conditions shall not be permitted.

(b) Detached Accessory Buildings: A detached accessory building may be permitted and shall be subject to all the covenants, conditions, and restrictions imposed by Article II hereof. The detached accessory building shall compliment in design and composition the dwelling placed on the premises and in no event shall such accessory building be permitted with a height greater than the dwelling itself. The design and site plan of such accessory building shall be submitted to the Committee for approval prior to obtaining a building permit and commencing construction of such accessory building.

(c) Roof Lines: Roof Lines must be kept at a 5/12 slope or greater, unless special permission is given by the Committee upon review of plans, specifications and Lot location.

(d) Retaining Walls: All retaining walls must be approved by the Committee.

(e) Fences: No privacy fences shall be allowed in front of the dwelling (or in the case of corner lots, on either side facing a street). Chain link fencing of any type, brand or make is not allowed to be constructed on the property unless it is for recreational purposes (i.e. sport court).

(f) Garages and Driveways: Every dwelling must have a minimum of a two (2) car garage and a driveway leading thereto large enough to accommodate two cars parked side-by-side.

(g) Prohibitions against Soil Erosion and Runoff. It shall be the

responsibility of the property owner to direct site work relative to the lot in such a manner as to minimize erosion and runoff. Construction shall be conducted in such a manner as to prevent the movement of earth materials or construction debris onto neighboring property or into the storm drainage system. Lot owners shall cause all construction to take place in a good and workmanlike fashion so as not to misuse the natural streams or drainage once constructed.

Section 10. Architectural Approval. No building or structure shall be erected, placed or altered on any lot until the construction plans and specifications and a plan showing the location of the structure upon the lot have been approved by the Committee as to quality of workmanship and materials, harmony of external design with existing structures, and elevation. All homes shall be traditional in style; traditional meaning homes with a Colonial, early American, Tudor, or French architecture. Homes with massive use of glass which resembles commercial buildings or ultra-contemporary/modern design, sub-terrestrial windows, and extreme use of wood will be discouraged. Any home with ultra-contemporary/modern architecture will be discouraged.

The approval or disapproval of any building or structure must be given in writing by the Committee. All decisions of the Committee shall be final and neither the Committee nor its designated representatives shall be subject to any liability thereof. Any errors or omissions in the design of any building or landscaping, or any violations of city or county ordinances are the sole responsibility of the owners and/or their designated architects. The Committee's review of plans shall in no way be construed as an independent review or opinion of the structural or mechanical adequacy or soundness of the building, and liability thereof. The Committee in its discretion shall be empowered to grant reasonable variances from the conditions and restrictions set forth in this Declaration.

ARTICLE III

Eagle Mountain "I" Development Committee

Section 1. Membership. The Committee is comprised specifically of Dave Cottle, James Patterson and Scott Dunn. Decisions of the Committee shall be by majority vote, and a majority of the Committee may designate a representative to act for it. The Committee may fill vacancies in the Committee and remove members thereof in its discretion; provided, however, that when ninety percent (90%) of the land comprising the saleable property has been sold (either by deed or under contract of sale), then thereafter, upon designation by eighty percent of those who are owners (either in fee or by contract of purchase) of land comprising the property, of some person or persons whom such owners desire to make a member of said committee, the undersigned will appoint such person or persons to the Committee, and if necessary, will remove from said Committee existing members in order to create vacancies for the new appointments; provided further, however, that one person designated by the Undersigned shall always remain a member of said Committee if the Undersigned so desires. The functions of the Committee shall be, in addition to the functions set forth elsewhere in this Declaration, to

pass upon, approve or reject any plans or specifications for structures to be erected on lots within the property, so that all structures shall conform to the restrictions and general plans of the Undersigned, and of the Committee, for the improvement and development of the entire property. Nothing in this paragraph shall be construed as authorizing or empowering the Committee to change or waive any restrictions which are set forth in this Declaration except as herein specifically provided. The Committee may act by any two of its members, and any authorization, approval or power made by the Committee must be in writing signed by at least two members.

Section 2. Enforcement. The Committee or any owner or the successor in interest of any owner shall have the right to enforce by proceedings at law or in equity all restrictions, conditions, covenants, reservations, liens and charges now or hereafter imposed by the provisions of this Declaration or any amendment thereto, including, but not limited to, the right to prevent the violation of any such restrictions, conditions, covenants or reservations and the right to recover damages for such violation.

ARTICLE IV GENERAL PROVISIONS

Section 1. Easements. For installation and maintenance of utilities and drainage facilities, areas, are reserved as shown on the recorded plat. Within these easements, no structure, planting or other materials shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction or flow of drainage channels in the area or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each of the lots and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

Section 2. Nuisances. No noxious or offensive activity shall be carried on upon any of the property, nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood. No storage of any articles which are unsightly in the opinion of the Committee will be permitted on or about the premises unless in enclosed areas built and designed for such purposes or otherwise kept out of view from the street. No automobiles, campers, motor homes, trailers, boats or other vehicles are to be stored on streets of front and side yards, only on a temporary basis and provided they are in running condition and properly licensed.

Section 3. Garbage and Refuse Disposal. The property shall not be used or maintained as a dumping ground for rubbish, trash, garbage or other waste, which shall not be kept except in sanitary containers. All refuse containers shall be kept in clean and sanitary condition. No unsightly material or objects are to be stored on any of the property in view of the general public.

Section 4. Horses; Other Livestock. Neither horses nor other livestock shall be kept on the property.

Section 5. Satellite Dishes, Other Structures. Stand-alone satellite dishes, statues, fountains, and other similar items must be submitted for approval by the Committee.

Section 6. Construction Activities; Clean Up; Owner Liability; Cash Deposit. Each owner shall be fully responsible for clean up of all construction materials, debris, and refuse on the property resulting from construction activities undertaken with respect to his lot. Furthermore, each owner shall be liable for damages to curbs, gutters, drainage systems, and other common areas and to adjoining lots resulting from his acts or the acts of his contractors and workmen in performing construction activities on his lot. To cover potential damages resulting from construction activities undertaken with respect to each lot owner, each owner is required to make a cash deposit in the amount of \$1,000.00 with the Committee or it's designated Escrow Agent at the time his plans are approved and the building permit issues. If no damages result from construction activities undertaken with respect to construction on the lot, the cash deposit will be returned upon issuance of the Certificate of Occupancy.

Section 7. Severability. Invalidation of any one of these covenants, conditions or restrictions by judgment or court order shall in no wise affect any of the other provisions which shall remain in full force and effect.

Section 8. No Recourse. The protective covenants, conditions and restrictions set forth in this Declaration, together with the Committee, are established for the benefit of the Eagle Point Plat I subdivision. Any damage, loss, claim or liability which might arise due to any decision, act, or failure to act of the Committee or any of its members shall be exempt from any civil claim or action brought by any signatories of this Declaration, or by any person owning or having an interest in any lot or property within the subdivision. The Committee and its members shall be held harmless from any such action or failure to act, and exempt from any civil claim or action resulting from any act or failure to act (whether intended or implied) while functioning as a member of the Committee or for decisions that they may render during the course of their service.

Dated this 10th day of May, 2008.
