event of the death or resignation of any member of said committee, the remaining member or members shall have full authority to approve or disapprove such design and location within thirty (30) days after said plans and specifications have been submitted to it, or in any event, if no suit to enjoin the erection of such building or the making of such alterations has been commenced prior to the completion thereof, such approval will not be required and this covenant will be deemed to have been fully complied with. Neither the members of such committee or its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. The powers and duties of such committee, and of its designated representative, shall cease on and after twenty-five (25) years. Thereafter, the approval described in this covenant shall not be required unless, prior to the said date and effective thereon, a written instrument shall be executed by the then record owners of a majority of the lots in this subdivision and duly recorded appointing a representative or representatives, who shall thereafter exercise the same powers previously exercised by said committee.

(3) The following requirements, conditions and procedures are listed as follows: The owner shall be required to consult with the committee as to location of the dwelling, set-backs from street, side and rear property lines, recommended grades and allowable removal of trees. After the committee has advised the owner, the owner will have preliminary plans prepared which will be submitted to the committee for approval or necessary alterations to conform with the site and lot requirements. After preliminary studies have received written approval, the owner will proceed and have the final plans, specifications and plot plan completed which will be again submitted to the committee for final written approval. The location of the building on the plat shall be as designated by the committee and subject to topography and trees. Front yard set-back will be determined by the conditions of the site. Side yards to have a minimum of eight (8) feet each side, rear yard twenty-five (25) feet, unless site conditions justify a reduction at the discretion of the committee. The building is to conform with existing contours of the site, with a minimum amount of regrading, and is to be in conformity and harmony of external design with existing structures in the subdivision. All side, front and rear fences are to be approved by the building committee.

(4) The committee is to have full control in designating which trees are to be cut to make the necessary space for the erection of the dwelling. The plan of the house is to make full use of the areas that are open and free of trees. It is the responsibility of the owner to cut and haul from the area all trees that have been so designated for removal.

(5) No noxious or offensive trade or activity shall be carried on upon any residential lot hereinbefore described or any part or portion thereof, nor shall anything be done thereon which may become an annoyance or nuisance to the occupants of the remaining residential lots hereinbefore described. This district is not intended to be divided for or used for a commercial area; therefore, livestock and fowls will not be permitted in the area. (This paragraph is not intended to restrict the area from household pets; however, not more than one cat and one dog may be kept by any one family.) Horses or livestock will not be permitted under any circumstances.

(6) No trailer, basement, tent, shack, garage or other out-building erected in, upon or about any of said residential lots hereinbefore described or any part hereof, shall at any time be used as a residence temporarily or

permanently, nor shall any structure of a temporary character be used as a residence.

(7) No structure shall be moved onto any residential lot hereinbefore described or any part hereof unless it meets with the approval of the committee hereinbefore named, such approval to be given in writing.

(8) No signs, billboards, or advertising structures may be erected or displayed on any of the residential lots hereinbefore described or parts or portions of said residential lots except that a single sign, not more than 3 x 5 feet in size, advertising a specific lot for sale or house for rent, may be displayed on the premises affected.

(9) No trash, ashes or any other refuse may be thrown or dumped on any residential lot hereinbefore described or any part or portion thereof.

(10) Until at such time as a sanitary sewer system shall have been constructed to serve Summit Park Subdivision, a separate sewage disposal system, constructed in accordance with the requirements of the Utah State Department of Health, shall be installed by the owner to serve each dwelling. The effluent from septic tanks shall not be permitted to discharge into a stream, storm sewer, open ditch, or drain, unless it has been first passed through an absorption field approved by the proper Health Authority. The type, size, location, installation, and connection of all septic tanks and field drains applicable to each building on each of said lots must be approved by the committee herein named.

(11) Easements for the installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat. However, the undersigned reserves the right to establish easements over or under the surface, or both, as may be required for the installation and maintenance of electric lines, telephone lines, water (domestic and irrigation), sewer (storm and sanitation), gas lines, and other public utilities together with any other accesses required with a right to assign said easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible. The courses of existing open irrigation water ditches will not be altered without written approval of the subdivision building committee mentioned in Paragraph Two (2) above.

(12) All covenants and restrictions herein stated and set forth shall run with the land and be binding on all the parties and persons claiming any interest in said residential lots hereinbefore described or any part thereof until fifteen (15) years from the date hereof, at which time said covenants and restrictions shall automatically be extended for successive periods of ten years unless by a vote of majority of the then owners of said residential lots, it is agreed to change the said covenants in whole or in part.

(13) If the parties now claiming any interest in said residential lots hereinbefore described, or any of them, or their heirs, successors, grantees, personal representatives or assigns, shall violate or attempt to violate any of the covenants and restrictions herein contained, it shall be lawful for any other person or persons owning any other residential lot or lots in said area to prosecute any proceedings at law or in equity against the person or persons,

firms, or corporations so violating or attempting to violate any such covenant or covenants and/or restriction or restrictions, and either prevent him or them from so doing or to recover damages or other dues for such violation or violations.

(14) Invalidation of any one of the covenants and restrictions hereinbefore set forth by judgment or court order shall in no way affect any of the other provisions hereof which shall remain in full force and effect until fifteen (15) years from date hereof, subject to automatic extension as provided in Paragraph 12 hereof.

IN WITNESS WHEREOF, the undersigned has caused these presents to be signed this 14 day of June, 1968.
