**THIS AGREEMENT** is made and entered into as of the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_ and between **KMAM Real Estate LLC** whose address is 11453 S Lone Peak Parkway, hereinafter referred to as the "Owner," and the **SOUTH VALLEY SEWER DISTRICT**, a political subdivision of the State of Utah, whose address is 874 East 12400 South, Draper, Utah 84020, hereinafter referred to as the "District."

#### **WITNESSETH:**

**WHEREAS**, the Owner proposes to install a sewer line or sewer lines, laterals, manholes and related structures and facilities (hereinafter, "Sewer Improvements"), as a part of the Karl Malone Toyota Collision Center development, which Sewer Improvements will be connected to the District's sewer system in order to provide for collection, transmission, treatment, and disposal of sewage from Owner's land; and

**WHEREAS**, the proposed Sewer Improvements are to be located on Owner's land at approximately 11535 S Lone Peak Parkway, in Draper City, Utah; and

**WHEREAS**, the District, in accordance with its rules and regulations, will not allow connection of the Sewer Improvements to the District's sewer system or otherwise approve or accept any work by the Owner unless an agreement is made to assure completion of the Sewer Improvements according to the District's Design Standards and Construction Specifications, and the plans and profile drawings approved by the District; and

**WHEREAS**, the parties hereto desire to reduce their respective understandings and agreement to writing.

**NOW, THEREFORE**, in consideration of the mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

a. **Plans and Specifications.** The Owner shall provide a set of plans and profile drawings of the Sewer Improvements and sewer system design for review and acceptance by the District. This design shall also provide for additional capacity for tributary areas if the District so directs. The District engineer will thereafter approve or reject the Owner's plans and drawings.

b. **Installation.** After compliance with all District requirements, including payment of all connection, review and inspection fees and costs, a preconstruction conference may be held with the Owner and the District's engineer and/or inspectors. Upon satisfactory compliance with all of the foregoing requirements, the Owner shall proceed to install in a workman-like manner at Owner's sole cost and expense, the Sewer Improvements as shown on the plans and profile drawings approved by the District and in accordance with the District's Design Standards and Construction Specifications. If the Sewer Improvements are not commenced within one (1) year from date of this Agreement, Owner shall resubmit plans for review and approval by the District engineer. All work shall be subject to District testing, inspection and approval before the same is covered or interconnected with the main outfall lines constructed by the District. If the work is covered before such testing, inspection and acceptance, the District may require the line to be uncovered for testing and inspection and may disconnect the Owner's system from the District's sewer system. The actual interconnection of Owner's sewer system with the District's main outfall line or lines shall be done at a time and in a manner approved by the District at the Owner's expense. Owner, at the time of the initial installation, shall install appropriate wyes in the sewer main line for each connection to be serviced, and extend lateral sewer lines to a point inside of any curb, gutter, and sidewalk within the property line of each connection or lot.

c. **Connection to District Lines.** Owner's Sewer Improvements shall not be connected to the District lines until Owner has fully performed Owner's obligations set forth in this Agreement.

a. Owner is the owner of the real property for which this Agreement is made;

b. Owner hereby grants the District and its designees the full right to enter upon all property within Owner's development to inspect the Sewer Improvements at any time.

c. Owner understands that Owner's facility or facilities will be served by the Sewer Improvements and that the impact fees calculated and charged by the District will be based on AUTO REPAIRS category, consisting of 25,000 Square feet.

**4. Costs and Fees.** The Owner hereby agrees to bear the total costs of constructing all Sewer Improvements required for the servicing of Owner's development (including extensions from existing District sewer mains to the development, the sewer collection system within the development, and laterals to each lot, parcel, building or connection within the development). No lot or parcel of real property or building shall be connected to any portion of the District's existing sewer system until the then applicable impact fee therefor has been paid to the District. The applicable impact fees shall be those impact fees established by the District's Board of Trustees with respect to Owner's facilities to be served by the District's sewer system. Owner's initial impact fee shall be paid to the District by Owner based upon the District's fee schedule established for Owner's initial designated facility or facilities. The District may charge and Owner shall pay additional impact fees if a change of use occurs in Owner's facilities served by the Sewer Improvements at those rates which are in effect on the date when the additional impact fees are actually paid to the District.
