Amendments to  
Shiloh Estates-Protective Covenants

1. Home must be off-set minimum of 60' from front property line
2. Size of Home Sq. Footage-2300 on Main level with at least 3,000 total
3. Type of Home that could be built-Two story and one level Rambler. No bi-levels or split levels. The water table is high, (3') and would cause problems if home put in ground.
4. Landscape: Home must be built in contour with land. In other words, you would not be allowed to pour a 8' basement, then bring in fill around the basement to hide the concrete.
