5.1. Assumption of Risk, Waiver and General Release of Claims. Each Owner, by his, her or its purchase of a Lot, hereby acknowledges that the Project is part of a mountain community with certain activities, which may include, without limitation: trails for skiing, hiking, walking, cycling, open spaces, wildlife, pets, rugged terrain, snowmaking, horses and horseback riding, games and activities, running, snow-shoeing, and other club-type facilities, events, activities and programs (collectively, "Activities"), and each such Owner expressly assumes the risk of noise, nuisances, hazards, personal injury, or property damage related to any and all Activities, including without limitation: (a) noise from maintenance equipment (it being specifically understood that such maintenance may take place at any time(s) of the day or night), (b) noise caused by activities and participants, (c) noise from snow removal and trail grooming machinery,

(d) construction and development activities, (e) view restrictions caused by installation, relocation and maturation of trees and shrubbery, and the construction of other buildings and facilities, (f) reduction in privacy, including that related to maintenance activities, (g) errant equipment, including golf, landscaping, and mountain bikes, and (h) facilities design and construction activities. Each such Owner agrees that neither Declarant, the Conservancy, any Manager, any committee created by the Conservancy, any of the Declarant's affiliates or agents, nor any Activities participant (unless acting recklessly or in a willfully wrongful manner) shall be liable to Owner, other owners, or any other person claiming any loss or damage, including, without limitation, indirect, special, or consequential loss or damage arising from personal injury, destruction of property, trespass, loss of enjoyment, or any other alleged wrong or entitlement to remedy based upon, due to, arising from, or otherwise related to: (i) the proximity of an Owner's Lot to any equestrian trail, ski trail, bike trail, hiking trail, or other venue; (ii) any claim arising in whole or in part from the negligence of Declarant, any of Declarant's affiliates or agents, any Manager, the Conservancy, or any committee created by the Conservancy (and all of their respective affiliates, subsidiaries, parent companies and other related companies, and all of their respective past and present directors, officers, shareholders, members, managers and all of their respective agents, representatives, attorneys, and employees of any of the foregoing) (collectively referred to herein as "Released Parties"); or (iii) any Activity (collectively referred to herein as the "Waived Claims"). Each Owner and guest understands and agrees that the waiver and release set forth in this Article is intended to be a "general release" and is not an admission of wrongdoing or liability by or on the part of any Released Party. Nothing in this Article shall in any way be construed as an admission by any Released Party that it acted wrongfully with respect to the Releasors. Each Owner and guest agrees that he, she or it will not, directly or indirectly, disparage, defame, or make defamatory or disparaging statements to any person or entity, including the press, regarding the Released Parties, any Waived Claim, or Declarant's past or present management, directors, officers, employees, and agents. If any covenant or provision of this Article is declared invalid, illegal, or incapable of being enforced by reason of any rule of law, administrative order, judicial decision, or public policy, all other covenants and provisions herein shall, nevertheless, remain in full force and effect.

5.2. Off -Site and On-Site Disturbance.

- 5.2.1. By acceptance of a deed to a Lot, each Owner hereby agrees and acknowledges, that, inasmuch as an Owner may be purchasing a Lot during a period of construction at the Project, and the acquisition of the Lot may occur prior to the completion of the construction on other Lots and improvements at the Project, there may be certain inconveniences, including, but not limited to, interruption of travel caused by road construction, noise, dust, odors and debris associated with construction, until all construction within the Project is

complete. Each Owner waives all claims against the Released Parties with respect to any such inconveniences and nuisances.

5.2.2. Living in a mountain community development entails living in close proximity to other persons and recreational facilities, with attendant limitations on solitude and privacy. Owners may experience light entering the Lots from other residential lighting in proximity to the windows and doors of the Lots.

5.2.3. Each Owner acknowledges that (i) there are no protected views in the Project, and no Lot is assured the existence or unobstructed continuation of any particular view, and (ii) any construction, landscaping or other installation of improvements by the Declarant or owners of other property in the vicinity of the Project, including, without limitation, owners of the adjacent Lots or property, may impair the view from any Lot, and each Owner consents to such view impairment.

5.3. Gates. Installation and maintenance of any gate, security or traffic access device, operation, or method, shall not create any presumption or duty whatsoever of the Declarant or the Conservancy (or their respective officers, directors, managers, employees, agents, and/or contractors) with regard to security or protection of persons or property within or adjacent to the Project. Each Owner, by acceptance of a deed to a Lot, whether or not so stated in the deed, shall be deemed to have agreed to take any and all protective and security measures and precautions which such Owner would have taken if the Project had been located within public areas and not gated.

5.4. Notice Regarding Mountain Regional Water Special Service District. All lot owners served by Mountain Regional Water Special Service District (the District) within this plat agree to abide by all of the Rules, Regulations, and other Construction related Standards and Specifications of the District, including payment of all necessary fees prior to the issuance of a building permit. Lot owners also recognize that the District's service area spans a large mountainous area with extreme vertical relief resulting in numerous pressure regulation facilities. As such, the owners recognize that fluctuations (albeit infrequent) in water pressure may pose a risk to properties served by said system. Owners agree to install and be responsible for the proper operation of any necessary pressure regulation and backflow devices to protect any plumbing facilities and fire sprinkling systems. Further, the District shall have the right to install, repair, maintain, replace, enlarge, extend, and operate their equipment above and below ground and all other related facilities within any easements identified on this plat as may be necessary or desirable in providing water services within and without the lots identified herein, including the right of access to such facilities and the right to require removal of any obstructions including structures and trees, that may have been placed within the easements. The District may require the lot owner to remove all structures and vegetation within the easement at the lot owner's expense, or the District may remove such structures and vegetation at the lot owner's expense. At no time may any permanent structures, including trees and retaining walls, be placed within the easements or any other obstruction which interferes with the access and use of the easements without the prior written approval of the District. The District is further granted rights of access to any and all non-exclusive easements, including emergency or non-emergency access roads contained within this Subdivision to enlarge and/or extend its services to any adjoining properties and plats.

6. Lot Combination. The combination of two adjacent lots into a single lot may be permitted in certain areas as determined by the Declarant or the Conservancy, in the exercise of the Declarant's or Conservancy's sole discretion. If an owner purchases two adjacent and contiguous lots, and the proposed house location straddles a lot line or extends beyond the boundaries of the Design Reviewer's predetermined building envelope on either lot, it will be necessary to have the revised building envelope approved by the Design Reviewer in connection with the approval of a specific house plan. The approval or disapproval of the Design Reviewer may be made in the exercise of its sole discretion. Further, the combination of lots will require the approval of Summit County for a lot line adjustment, modification of the platted building envelope, or any other amendment to the Plat. Request for such approval may not be submitted to Summit County without prior written approval of the Design Reviewer. If two lots are combined for purposes of building a single home on the two lots the combined homesite will still be responsible for payment of two lot assessments to the Promontory Conservancy, plus village assessments, just as though it remained two separate lots.
