**SIXTH AMENDMENT TO DEVELOPMENT AGREEMENT
FOR THE PROMONTORY SPECIALLY PLANNED AREA
EASTERN SUMMIT COUNTY, UTAH**

**THIS SIXTH AMENDMENT TO THE DEVELOPMENT AGREEMENT FOR
THE PROMONTORY SPECIALLY PLANNED AREA EASTERN SUMMIT COUNTY,
UTAH** (the "Amendment") is made and entered into as of this 6th day of March, 2015 (the
"Effective Date"), by and between PROMONTORY DEVELOPMENT, LLC, an Arizona
Limited Liability Company, (the "Developer") and **SUMMIT COUNTY**, a political subdivision
of the State of Utah (the "County"). The County and the Developer are individually referred to
herein as a "Party" and jointly referred to herein as the "Parties."

RECITALS

- A. **WHEREAS**, Developer is the developer of certain real property subject to that certain Development Agreement for the Promontory Specially Planned Area (the "Property");
- B. **WHEREAS**, the County and Pivotal Promontory Development, L.L.C. as developer of the Property entered into that certain Development Agreement for the Promontory Specially Planned Area Eastern Summit County, Utah, dated as of January 2, 2001 (the "Initial Development Agreement") providing the terms and conditions for the development of the Property.
- C. **WHEREAS**, the Initial Development Agreement was amended as recorded on January 6, 2005 as Entry No. 00722231 in Book 01671 at Pages 876-880; as recorded on December 12, 2007 as Entry No. 00832477 in Book 1904 at Page 0100; as recorded on March 3, 2015 as Entry No. 1013800 in Book 2284 at Page 1587; as recorded on May 24, 2016 as Entry No. 1045702 in Book 2353 at Page 1017; as recorded on May 24, 2016 as Entry No. 1045703 in Book 2353 at Page 1089; as recorded on June 21, 2017 as Entry No. 1071947 in Book 2415 at Page 610, and as recorded on December 6, 2019, as Entry No. 1123200 in Book 2544 at Page 0124, all in the Official Records of Summit County, Utah (the "Amended Development Agreement"); and
- D. **WHEREAS**, Developer and the County have agreed to amend the Amended Development Agreement in certain respects to adjust the maximum size of Utility Buildings, and to clarify ambiguity with respect to Construction Mitigation and soils management within the SPA.

AGREEMENT

NOW, THEREFORE, inconsideration of the mutual promises and covenants contained herein, and in the Development Agreement (as amended), and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. **Approval.** The County, acting pursuant to Section 6.9.2 of the Amended Development Agreement, has found that the amendments to the Amended Development Agreement contained in this Sixth Amendment are not Substantial Amendments as defined in the Amended Development Agreement, and are instead, Administrative Amendments, which may be made by the Community Development Director without public hearing or recommendation of the Planning Commission, and has approved the terms of this Sixth Amendment.

2. **Findings.** The Community Development Director has made all findings of fact and conclusions of law as are necessary to approve this Sixth Amendment as an Administrative Amendment to the Amended Development Agreement. Without limiting the generality of the foregoing, the Director finds that the Amended Development Agreement, with such modifications as are approved by this Sixth Amendment, are generally consistent with the efficient development and preservation of the entire specially planned area plan. Where there is a direct conflict between the terms of this Sixth Amendment and the Amended Development Agreement (including its exhibits), this Sixth Amendment shall take precedence. Where there is a direct conflict between the Amended Development Agreement and the Code or General Plan or other land use laws, the Amended Development Agreement shall take precedence.

3. **Intent and Effectiveness of Sixth Amendment.** This Sixth Amendment is intended to continue the existing entitlements, obligations, regulatory standards and vested rights under Ordinance 298-A, the Promontory SPA, as amended, and the Amended Development Agreement that are applicable to the Promontory Property without constituting a "Substantial Amendment" under the provisions of the Amended Development Agreement.

4. **Agreed Amendments.**

A. Section 1.14 is amended to read as follows:

1.14 Development Application means an application to the County for development, including a building permit, conditional use permit (according to Summit County Code) or any other permit, certificate or other authorization from the County required for development of the Property.

B. Section 4.7.13 is amended to add the following as the final sentence: Soils Management Sites must be approved pursuant to the Conditional Use Permit process identified in Summit County Code.

C. Section 4.7.17.1 - .5 is added to the existing Development Agreement immediately before the existing Section 4.7.18 as follows:

4.7.17.1 Soils Management within the SPA. To minimize traffic, wear and tear, and debris on county roads, Developer may source, deposit, and temporarily or permanently store soils in connection with excavation within the SPA. Spoils from construction sites should be used, stored or deposited within the construction site (defined in the applicable permit) in compliance with applicable Design Guidelines and best management practices. Rock and excess soils may be placed temporarily or permanently in an identified soils management site. Excess soils are those that would cause slopes on the construction site in excess of 4 to 1 without approved retaining or that would negatively alter natural drainage toward or away from a structure or cause soil erosion.

4.7.17.2 Soils Management Sites. A soils management site is not a landfill and Developer shall not allow construction waste (drywall, lumber, appliances, flooring, piping, electrical) to be deposited. Only structural and non structural soils, topsoil, harvested boulders, rocks, cobble,

and materials etc., sourced from within the SPA may be deposited. Necessary equipment may be stored and used on site to unload, load, process and distribute deposited soil materials as approved through the Conditional Use Permit process. Soils Management Sites may be used as both a repository and a source of soils materials. For example, and not as a limitation: topsoil can be sourced from a Soils Management Site and delivered to areas to assist in landscaping elsewhere in the SPA. Soils removed from a construction site can be placed in a Soils Management Site. The same deposited soils can later be used as fill where and when needed elsewhere in the SPA. Harvested boulders can be placed in a Soils Management Site and later distributed for use throughout the SPA for use in retaining walls, landscaping, or crushed for gravel to be used within the SPA.

4.7.17.3 Management and Monitoring. All Soils Management Sites shall be managed by the Developer or the Promontory Conservancy in compliance with SWPPP, SW4, and Best Management Practices subject to periodic review by the County to ensure compliance with this Section 4.7.17 and Exhibit K. A lockable gate shall be installed and maintained. Signs shall be posted stating that the Soils Management Site does not accept materials from outside of the SPA and that construction waste is prohibited and subject to fine. Access to the Sites shall be restricted to use by the Developer and Developer owned entities to ensure that only soils from within the SPA are received. To additionally limit excessive excavation in the SPA, Developer shall cause the following to be included as a Note in each Plat recorded after the date of this Amendment: “Developer or the Architectural Review Committee shall deny an application to build on any homesite on this plat if the proposed building footprint of the home to be built exceeds 75% of the platted building envelope on a lot in excess of one half acre. This limitation shall not apply to Resort Units, or on lots one half acre or less.” Developer shall further cause the following to be included in the Design Guidelines: Developer or the Architectural Review Committee shall deny an application to build on any homesite if the proposed building footprint of the home to be built exceeds 75% of the platted building envelope on a lot in excess of one half acre. This limitation shall not apply to Resort Units, or on lots one half acre or less; neither shall it apply to require homes approved by the Architectural Review Committee prior to June 1, 2025 to be reduced in size.” For the purposes of this section, the term “building footprint” is defined as the plan projected area of all impermeable surfaces as measured by the area within the perimeter of the roof plan with the addition of any impermeable surfaces that project beyond the perimeter of the roof such as uncovered impermeable decks, patios and walkways, chimneys, pools, and other such features but excluding driveways. Flagstone and pavers are considered permeable surfaces. This limitation shall not increase the maximum net livable area allowed on the plat.

4.7.17.4 Approved Locations. The Developer may implement and maintain soils management sites at the three locations identified in Section 12 of The Construction Mitigation Plan attached hereto as Exhibit K. All Soils Management Sites shall be appropriately screened or buffered, located outside of Preservation viewshed areas, and unless sufficiently screened by topography or evergreen vegetation, outside of Retention Viewshed areas to minimize the visual impact of such Soils Management Site. Developer can create additional Soils Management Sites within the SPA in compliance with Section 6.9.2.

4.7.17.5 **Completion and Restoration.** If required by the County, a restoration bond shall be maintained by the Developer with an appropriate surety to ensure that Developer appropriately grades and revegetates all disturbed areas with native grasses and wildflowers using the seed mix stated in Exhibit L. Each proposed Soils Management Site shall be reviewed for approval by County staff according to the Conditional Use Permit process . Each Soils Management Site shall comply with applicable erosion controls and best management practices.

5. **Mitigation.** This Amendment does not replace the requirement for a construction mitigation plan for each construction project.

6. **Utility Structures.** Note 10 on Figure 12 of Exhibit M is modified to allow utility structures up to 300 square feet. Figure 12 of Exhibit M is replaced in its entirety with the Figure 12 attached hereto as Exhibit 1.

7. **Site Identification.** Exhibit K is amended to add a new paragraph 12 to identify the Soils Management Sites within the SPA.

8. **Effectiveness of Sixth Amendment.** Consistent with the purposes and intent Reflected in the preceding paragraphs, the Sixth Amendment shall not constitute a "Substantial Amendment," and such amendment shall be approved and shall become effective at the same time, subject to all applicable appeals periods with respect to such final approval having expired without an appeal having been filed. The intent of the preceding conditions to effectiveness is to assure that the clarification pertaining to the Promontory Property shall be included within and applicable to the Promontory Property without any gap in time from the original point of establishing vested rights under the Initial Promontory Development Agreement.

9. **No Other Amendments.** Except as set forth in this Sixth Amendment, the Initial Development Agreement, as previously amended by the prior amendments, shall remain in full force and effect and unamended.

IN WITNESS WHEREOF, the parties have caused this Sixth Amendment to be executed as of the Effective Date.
