

**GEOLOGIC STUDY ACKNOWLEDGMENT
AND COVENANT RUNNING WITH THE LAND**

I understand that Provo City has passed Chapter 15.08 known as the Sensitive Lands ordinance which requires a geologic report on certain land within the city that may or may not have geologic problems or hazards. It is the obligation of the owner or developer to obtain the report. In those instances where the report identifies a geologic problem or hazard, it is the responsibility of the owner or developer to eliminate or mitigate the identified problem or hazard and to make any necessary disclosures to subsequent owners.

I understand that Provo City does not inspect for the existence or correction of geologic problems or hazards as this is between the geologist or geotechnical engineer, the developer, and the owner(s) of the land.

I have read the site-specific geologic report prepared by RICKEY EMMERT dated on _____ and filed with the city. The property described as: _____
4601 N FOOTHILL DR. PROVO UT
HILLSIDE OAKS SUB. PLAT B LOT 1
is subject to the following physical hazards of a geologic nature: _____
FRONT LOT

The mitigating measures to be taken are: _____
AREA EXCAVATE 0' & R.E. CONDUCT

I covenant and agree that the structures and construction specified in the geologic report shall be completed in compliance with the geologic report.

This covenant and agreement shall run with the land and shall be binding upon the undersigned, any future owners, encumbrancers, their successors, heirs or assigns.

Owner: Craig Peay Owner: _____
Owner: Craig Peay Owner: _____

Subscribed and sworn to before me, a Notary Public in and for the State of Utah, this 14 day of November 2005
