REC FOR STATE OF UTAH BOOK 202 PAGE 676-682

RECODER JOE DEAN HUBER BY BRUCE BAILEY

Wasatch County, State of Utah

85 5312

AGREEMENT

This Agreement entered into this 8th day of May 1985, by and between the State of Utah, acting through the BOARD OF WATER RESOURCES, First Party, sometimes referred to herein as the STATE, and the CENTER CREEK IRRIGATION COMPANY, a corporation, organized under the Laws of the State of Utah, Second Party, sometimes referred to herein as the WATER COMPANY:

W I T N E S S E T H

THAT WHEREAS, the Utah Legislature has authorized the BOARD OF WATER RESOURCES, under Title 73-10 Utah Code Annotated, to enter into contracts for the construction of water conservation projects, which in the opinion of the Board, will best conserve and utilize the water resources of the State of Utah; and

WHEREAS, the Parties hereto did on August 20, 1973 enter into a contract for construction of water conservation project, under which contract certain water rights, easements, and rights-of-way were conveyed to the STATE; and

WHEREAS, the STATE desires to promote a water conservation project to be funded from the Revolving Construction Fund, and consisting of construction of a gravity pressure sprinkle irrigation system to serve about 920 acres of farmland, hereinafter referred to as the PROJECT and located in the SE 1/4 of Section 9, the S 1/2 of Sections 10 and 11, the W 1/2 of Sections 13 and 24, the N 1/2 of Sections 14 and 15, and the NE 1/4 of Section 16, T4S, R5E, SLB&M in Wasatch County, Utah; and

WHEREAS, it is the desire of the WATER COMPANY to enter into a contract with the STATE, for a consideration to be hereinafter provided, and to use the water developed by the PROJECT, and as the WATER COMPANY has the available manpower and facilities necessary to construct the PROJECT, and is ready, willing, and able to enter into a contract for such purpose;

NOW THEREFORE, the Parties hereto enter into this Agreement and make the following assignments:

1. The WATER COMPANY hereby agrees to convey, grant, and warrant to the STATE, title, in fee simple as required, to the real estate upon which the structures are to be constructed; and further agrees to convey, grant, and warrant to the STATE, title to such easements and rights-of-way as shall be necessary to enable the STATE to construct, maintain, and operate the PROJECT; and further agrees that the STATE shall retain, for the life of this agreement and the aforesaid previous contract, title to the real estate, easements, and rights-of-way conveyed to the STATE pursuant to said contract.

676

2. The WATER COMPANY hereby agrees that the STATE retain for the life of this agreement and the aforesaid previous contract, title to the water rights conveyed to the STATE pursuant to said contract, being particularly the right to the use of the waters of Center Creek awarded to the Center Creek Water and Irrigation Company in Civil Decree No. 55, in the Fourth Judicial District Court of the State of Utah, in and for the County of Wasatch; Center Creek Water and Irrigation Company vs. John A. Thomas, dated June 15, 1898, Warren H. Dusenberry, Judge. Also a diligence right to store 581.2 acre-feet of water in the Center Creek reservoirs No. 1, 2, 3, and 5, as described in Claim No. 923 (55-1440).

3. The WATER COMPANY recognizes as valid the conveyance of easements and rights-of-way executed by various owners of the land to the STATE, and agrees that all performance by the WATER COMPANY under this contract shall be subservient to, and in recognition of, the aforesaid rights of the STATE in and to the aforesaid easements and rights-of-way.

4. The WATER COMPANY agrees to supply the necessary manpower and facilities and agrees to complete the construction of the PROJECT regardless of unforeseen contingencies, in accordance with plans, specifications, and work items, a copy of which is hereby incorporated by reference and made a part hereof. For the purpose of this Agreement, the WATER COMPANY is construed to be the prime contractor for all work performed. Any construction contractor who enters into an agreement with the WATER COMPANY for the performance of all, or part, of the PROJECT work shall be termed a subcontractor.

5. The STATE agrees to pay to the WATER COMPANY Sixty-Five and Two Tenths Percent (65.2%) of the total cost of constructing the PROJECT, but in no event shall the amount paid by the STATE exceed Two Hundred Ninety Three Thousand Dollars (\$293,000.00), and the WATER COMPANY agrees to pay all costs in excess of the amount paid by the STATE.

6. All payments made by the STATE to the WATER COMPANY under this Agreement shall be made payable to CENTER CREEK IRRIGATION COMPANY and mailed to Duane J. Sweat, Secretary, R.F.D., Box 653, Heber, Utah 84032, Phone: 654-0137, or such person as may hereafter be designated by the WATER COMPANY. The WATER COMPANY shall, during the construction period under this Agreement, establish in a bank of its choice, a special checking account for the project, and all monies from any source to be used for payment of obligations towards the construction work shall be deposited in this special account and dispersed by check to meet the obligations of the project construction. All items of labor and equipment shall be fully accounted for, and once each month the WATER COMPANY shall send to the DIVISION OF WATER RESOURCES a photocopy of each check issued from the said special account during the month. A copy of each Bank statement shall also be provided to the DIVISION OF WATER RESOURCES.

7. It is further agreed that payment of the construction costs by the STATE shall be made periodically to the WATER COMPANY upon the presentation by the WATER COMPANY to the STATE of a certified statement of the payment requirement which shall be in the nature of a partial estimate of the work completed to date by the WATER COMPANY on each work item. The WATER COMPANY shall withhold Ten Percent (10%) of each payment until Fifty Percent (50%) of the work has been completed, at which time the remaining partial payments may be made in full, if the work is progressing satisfactorily. Also, whenever the work is substantially complete, the amount withheld may be further reduced.

The amounts withheld as set forth hereinabove shall be deposited by the WATER COMPANY in a separate interest-bearing account, with the interest accruing to the benefit of the contractors and subcontractors on a pro rata basis according to the work performed by each. The withholdings and the interest earned thereon shall become due and payable to the said contractors and subcontractors upon satisfactory completion of the construction work under this Agreement, or sub-Agreements, and upon final inspection and acceptance of the work by an engineer designated by the STATE.

8. It is further agreed that the WATER COMPANY shall complete the construction of the PROJECT on or before December 1, 1985, and that title to the entire PROJECT, including all appurtenant facilities and water rights, shall immediately vest in the STATE.

9. The STATE agrees to sell, and the WATER COMPANY agrees to purchase, the land, easements, rights-of-way, water rights, the constructed works, and all appurtenant facilities acquired by the STATE in this Agreement and Assignments at a total purchase price defined to be the combined total of all funds paid by the STATE for the design and the construction of the PROJECT, but not to exceed Two Hundred Ninety-Three Thousand Dollars (\$293,000.00), plus all expense incurred by the STATE for the investigation, engineering, and inspection of the PROJECT, and to be determined by the STATE upon completion of the PROJECT.

10. The purchase price shall be payable over a period of time in annual installments of Fifteen Thousand Dollars (\$15,000.00), or more, without interest. The first annual installment of Fifteen Thousand Dollars (\$15,000.00), or more, shall become due and payable on the First Day of December, 1986, and a like sum, or more, shall be due and payable on the First Day of December of each and every year thereafter until the purchase price, as defined above, shall have been paid in full; said sums shall be payable at the office of the DIVISION OF WATER RESOURCES and the first monies received by the STATE under the terms of this contract will be applied against the indebtedness incurred by the STATE for investigation, engineering, and inspection until fully paid, and any residue will be applied to funds paid by the STATE for the construction of the PROJECT. Delinquent payments shall bear interest at a rate of Eighteen Percent (18%) per annum.

In the event that the WATER COMPANY changes the use of the PROJECT water or facilities from irrigation to include industrial or municipal, or hydroelectric power generation during the purchase period, the WATER COMPANY agrees that this Agreement will be amended to reflect a higher interest rate and/or a shorter repayment period for the outstanding balance due the STATE under this Agreement. The terms of the amendment shall be negotiable between the Parties hereto.

11. During the period of such purchase under this contract, provided the WATER COMPANY is not delinquent in any manner, the WATER COMPANY shall have and is hereby given the right to use the STATE'S water rights, and all facilities constructed thereunder. During the life of this Agreement, the WATER COMPANY agrees to assume, at the WATER COMPANY'S expense, the full and complete obligation of maintaining the constructed works, and other facilities, and of protecting all water rights, easements, and rights-of-way from forfeiture, including the payment of any fees or assessments for said water rights, easements or rights-of-way.

12. In order to secure the payment of the aforesaid purchase price, it is hereby expressly agreed that the STATE may require the WATER COMPANY to assess all outstanding shares of its stock for the full amount of any delinquencies in the aforesaid purchase installments. It is further agreed by the WATER COMPANY that it will not incur any mortgages or encumbrances, other than those already acquired by it, on any of its property, real or personal, without first securing the written consent of the STATE.

13. The WATER COMPANY hereby warrants the STATE that the construction of the PROJECT will not interfere with existing water rights. If the PROJECT herein described shall give rise to a claim, or cause of action to any holder of any water rights because of the interference with such rights by the operation of the PROJECT, then the WATER COMPANY hereby agrees to indemnify the STATE to the extent of such claim or cause of action.

14. In constructing or causing the PROJECT under this Agreement to be constructed, the WATER COMPANY shall comply with the provisions of the Utah Anti-Discrimination Act of 1965 and hereby agrees as follows:

- (a) The WATER COMPANY will not discriminate against any employee or applicant for employment because of race, color, sex, religion, ancestry, or national origin.
- (b) In all solicitations or advertisements for employees, the WATER COMPANY will state that all qualified applicants will receive consideration without regard to race, color, sex, religion, ancestry or national origin.
- (c) The WATER COMPANY will send to each labor union or workers representative notices to be provided, stating the WATER COMPANY'S responsibilities under the statute.

(d) The WATER COMPANY will furnish such information and reports as requested by the Anti-Discrimination Division for the purpose of determining compliance with the statute.

(e) Failure of the WATER COMPANY to comply with the statute, the rules and regulations promulgated thereunder and this non-discrimination clause shall be deemed a breach of this contract and it shall be cancelled, terminated or suspended in whole or in part.

(f) The WATER COMPANY will include the provisions of Items (a) - (e) in every subcontract or purchase order (unless exempted under the statute or rules and regulations) so that such provisions will be binding upon such subcontractor or vendor.

15. If either party to the contract violates any of the conditions or covenants made herein, the other may give written notice of such breach or failure, and if the same shall not be cured within Ninety (90) days after such notice, the other may declare the contract forfeited and may proceed to its remedies at law for such breach.

16. The WATER COMPANY hereby agrees to indemnify and save harmless the STATE and its officers, agents, and employees from any and all liability in connection with this agreement, including any and all claims for injury or death of persons or animals, or for any property loss or damage that may arise from the construction, maintenance, or operation of the PROJECT.

17. After the WATER COMPANY shall have paid in full the purchase price, as defined above, and provided the WATER COMPANY has satisfied the terms of the aforesaid Contract dated August 20, 1973, the STATE shall execute such deeds and bills of sale as will be necessary to revest the same title to the aforesaid property and water rights in the WATER COMPANY.

18. This Agreement, or any part thereof, or the benefits to be received under this Agreement, may not be the subject or any assignment to any person, firm, or corporation, by the said WATER COMPANY, without first having secured the written consent of the STATE to any such proposed assignment or disposition of this Agreement.

19. This Agreement shall not become binding upon the STATE until it has been signed by all persons and agencies required by law, and the STATE shall not become liable to the WATER COMPANY for any commitments made by the WATER COMPANY until this Agreement has been fully executed.

IN WITNESS WHEREOF, the State of Utah, acting through the BOARD OF WATER RESOURCES, Party of the First Part, has caused these presents to be signed by the Chairman and Director of the said BOARD OF WATER RESOURCES by authority of a resolution of said Board; and the CENTER CREEK IRRIGATION COMPANY Party of the Second Part, has caused these presents to be signed and executed on its behalf by Leroy Sweat, its President, and Duane J. Sweat, its Secretary, by authority of a resolution of its Stockholders at a meeting held Aug 30, 1984.
