Delivery of such water shall be as directed by the State Engineer or his representative at East Canyon Reservoir. The District shall have no obligation to provide works or facilities of any type to conduct such water from such point of delivery to its ultimate place of use. The purchaser shall have no right to hold over or accumulate water from year to year, nor to sell or rent the water.

3. OBLIGATION OF PURCHASER TO PAY FOR WATER: For the purchase of the annual quantity of water which the District holds and will hold for the Purchaser as herein provided, the Purchaser shall pay to the District an annual amount to consist of the total of the following items:

- (a) \$15.00 per acre-foot of water, being a total of \$1,950.00 to apply on the District's obligation under the repayment contract No. 14-06-400-33 between the United States and the District, and as it has been or may be amended and supplemented.
- (b) An amount not to exceed \$5.00 annually as determined by the District to pay the District's special costs and expenses in administering this allotment.

(G)

- (c) An amount equal to the assessments imposed by the State Engineer for the distribution of the water replaced hereunder.
- (d) A fair proportionate amount of estimated operating and maintenance charges of the District for the then calendar year. Such fair proportionate amount shall be determined each year by the Board of Directors of the District and the determination shall be final and conclusive. If such estimate is more or less than the actual cost thereof, an appropriate adjustment will be made in the annual amount for the year following the year for which the estimate was made.

The first annual payment under items (a), (b), (c) and (d) above shall be made by the Purchaser to the District before the first water is delivered, and shall be in payment for water available for the use as herein provided for that calendar year, and succeeding annual payments shall be made by the Purchaser to the District on or before January 1 of each year thereafter, provided, however, that upon payment in full of that part of the construction obligation of the District apportioned to the development unit applicable to this contract, no further payments under item (a) shall be required. Each annual payment shall be made to the District whether or not all or any part of the water is called for or used hereunder.

4. PENALTY FOR DELINQUENCY: Every installment or charge required to be paid to District under this contract, which shall remain unpaid after its due date, shall bear interest at the rate of six percent (6%) per annum from the date of delinquency.

5. REMEDIES OF DISTRICT IN CASE OF DEFAULT: The annual amount payable hereunder shall be and constitute a perpetual lien upon the lands hereinabove described. If the Purchaser shall fail to make any payment due hereunder on or before the due date, the District may refuse the delivery of water, or upon written notice to Purchaser, cancel this contract in its entirety, but either or both of these remedies are not exclusive, and the District may exercise any other remedy given by this contract or by law to enforce collection of any payment due hereunder, and for the foreclosure of the lien hereby created.

6. RELIEF IN EVENT OF DROUTH AND WATER SHORTAGE: In the event there

(G)

is a shortage of water caused by drouth, inaccuracies in distribution not resulting from negligence, hostile diversion, prior or superior claims or other causes not within the control of the District, no liability shall accrue against the District or the United States or any of their officers, agents, or employees or either of them for any damage, direct or indirect, arising therefrom and the payments to the District provided for herein shall not be reduced because of any such shortage or damage. During periods of water shortage, allocations of treated and untreated water for municipal, domestic and industrial use shall have first priority.

7. CONSTRUCTION, OPERATION AND MAINTENANCE OF PURCHASER'S FACILITIES:

The Purchaser shall construct, operate and maintain without cost to District or the United States, the well/spring and appurtenant facilities necessary to secure and accurately measure its water supply. The metering or other measuring device installed by the Purchaser shall be satisfactory to the State Engineer. The District has no responsibility for the quantity or quality of water that the Purchaser is able to secure through the operation of its well/spring.

8. BENEFICIAL USE OF WATER: The basis, the measure and the limit of the right of the Purchaser in the use of water shall rest perpetually in the beneficial application thereof, and the Purchaser agrees to put the water purchased by him hereunder to beneficial use in accordance with law.

9. ASSIGNMENT LIMITED - SUCCESSORS AND ASSIGNS OBLIGATED: The provisions of this Contract shall apply to and bind the successors and assigns of the parties hereto but as long as payments are required under Article 3(a) above neither this contract or any assignment or transfer of this contract or any part thereof or interest therein shall be valid until approved by the Secretary of the Interior.
