All of NORTHAMPTON ESTATES SUBDIVISION, PHASE 2 according to the official plat recorded in the Office of the County Recorder, Weber County, State of Utah.

No property other that described above shall be deemed subject to this Declaration unless and until specifically made subject thereto. The DECLARANT may, from time to time, subject additional real property to the conditions, restrictions, covenants, and reservations herein set forth by appropriate reference thereto.

ARTICLE II

ARCHITECTURAL CONTROL COMMITTEE

1. Membership. The Architectural control committee is composed of **Louis Bouy, Evon Waters and Lyle Waters**. A majority of the Committee may designate a representative to act for it. Neither the members of the Committee nor its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. The Committee shall be composed of at least (3) three members at all times and may release and appoint new members to said Committee with a majority approval.

2. Terms. The Committee shall remain in existence until such time as homes have been constructed on all of the lots in said subdivision, or until such later date as the Committee shall determine.

3. Functions. The functions of said Committee shall be to approve or reject any plan or specifications for structures to be erected on lots in said tract, so that all structures conform to the restrictions and general plans DECLARANT for the improvement and development of the whole tract. Nothing in this paragraph shall be construed as authorizing or empowering the Committee to change or waive any restriction(s) set forth in this Declaration, except as herein specifically provided. The Committee may act by any two (2) of its members or their designated representative. Any authorization, approval, rejection, or power made by said Committee shall be in writing and signed by at least two (2) members or their designated representative.

No building or structure shall be erected, placed, or altered on any lot until the construction plans and specifications and a plan showing the location of the proposed building or structure have been approved by the Committee as to quality of workmanship and materials, harmony of external design with existing buildings and structures, and as to location with respect to view, topography and finish grade elevation. No fence or wall shall be erected, placed or altered on any lot nearer to any street than the minimum building setback line, as determined by the Committee unless similarly approved.

4. Procedure. The Committee's approval or disapproval, as required in these covenants, shall be in writing. In the event the Committee or its designated representative, shall fail to approve or disapprove submitted plans and specifications within thirty (30) days after such plans and specification have been submitted to it, or in any event, if no suit to enjoin the construction has been commenced prior to the completion thereof, such written approval shall not be required, and the related covenants shall be deemed to have been fully complied with.

5. Enforcement. Enforcement, either by restraining the violation or recovery of damages, shall be affected by proceedings at law or in equity against any person or persons violating or attempting to violate any covenant. Either the Committee or any property fee title owner of a lot affected by any violation of these covenants is hereby authorized and empowered to bring such action.

ARTICLE III

IMPROVEMENTS

1. Type of Structures. Lots shall be used only for single-family dwellings. Said dwellings shall comprise not less than 1,350 sq. ft. on the ground level together with an attached at least two (2) car garage, or no less than 1,250 sq. ft. on ground level with a minimum of 2,000 sq. ft. on the two levels for a two story dwelling together with an attached at least two (2) car garage, or 1,250 sq. ft. minimum on the main and upper level with a minimum of 1,800 sq. ft. for a multi-level together with an attached two (2) car garage. A detached garage may be allowed with the approval of said Committee. All dwellings in the subdivision shall meet all North Ogden City Code requirements. All dwellings shall have "hip" or "gabled" roofs with a 6-12 pitch (flat, graveled or build-up roofs shall not be permitted). All dwellings will have a 6" minimum facia. No structure of a temporary character, trailer, "basement house", tent, shack, garage, barn, or other outbuildings shall be used on any lot at any time as a residence, either temporarily or permanently.

2. Authorization for Adjustments. The Committee shall have authority and power to reduce the single-family dwelling square footage requirements, as set out in the above paragraph, when in the Committee's best judgment, the plans represent a uniquely designed single-family dwelling, which would add character and/or value to the subdivision.

3. Landscaping. All family dwelling lots are to be landscaped in front and on side yards within one (1) year after North Ogden city issued a letter of occupancy.

4. Building exterior construction. The building exterior shall be predominantly covered with masonry or rock. Concrete walls higher than three feet higher than the finished lot are discouraged but if allowed will be textured. All builders shall use earth tone colors on exterior. No loud contrast colors will be allowed. The Committee may approve other exteriors, when in its judgement the plans represent a uniquely designated single-family dwelling, which would add character and/or value to the subdivision.

5. Start of Construction. All dwellings are to be started one (1) year from date of lot purchase.

ARTICLE IV
