PRIORITY OF RIGHT AUGUST 23, 1954

PERIOD AND NATURE OF USE

FROM APRIL 1 TO OCTOBER 31 INCLUSIVE OF EACH YEAR FOR MISCELLANEOUS PURPOSES

Whereas, It has been made to appear to the satisfaction of the undersigned that the appropriation of water has been perfected in accordance with the Laws of Utah; therefore, Be it known that I, WAYNE D. CRIDDLE the duly appointed, qualified and acting State Engineer, by authority of the Laws of Utah, do hereby certify that said appropriator is entitled to the use of water as herein set out, subject to prior rights, if any, for diversion and use as follows, to wit:

The water appropriated is yielded by a flowing well, fully cased with 4-in. diameter pipe driven to a depth of 175 ft. below low ground surface, situated S 5823.0 ft. and E 3612.0 ft. from NW Cor. Sec. 6 T1S R1E S1BW. The water, diverted by means of artesian pressure, is conveyed from the well by means of 14.0 ft. of 3-in. diameter pipe to an electrically-powered pump and pressure tank, from which it is conveyed 6.0 ft. through 2 1/2-in. diameter pipe, thence through 10.0 ft. of 3-in. diameter pipe to a buried sprinkler system. The water appropriated is, during the period from April 1 to October 31 inclusive of each year, intermittently used, as a supplemental supply, to irrigate 2.20 acres of lawn and shrubs and for intermittent sprinkling of 0.21 acre of land comprising a ball diamond. Total area irrigated is 2.41 acres in NW 1/4 Sec. 7 T1S R1E S1BW. The water also provides fire protection for bleachers and a recreational building adjacent to the above-described area during the aforesaid period.

This certificate entitles the holder to use for irrigation purposes only sufficient water from all rights combined to constitute an economic duty without waste.

Heretofore works employed in this appropriation are to be operated and maintained in such manner and condition as will prevent waste of water.

In witness whereof, I have hereunto set my hand and affixed the seal of my office this 30 day of January, 1959
