**DECLARATION OF PROTECTIVE COVENANTS,
AGREEMENTS, RESTRICTIONS, AND CONDITIONS AFFECTING
SUNSET FARMS NO. 2**

PART A. PREAMBLE

KNOW ALL MEN BY THESE PRESENTS:

E 1663724 B 2815 P 549
SHERYL L. WHITE, DAVIS CNTY RECORDER
2001 MAY 25 1:41 PM FEE 53.00 DEP REC
REC'D FOR BONNEVILLE TITLE COMPANY, INC

THAT, WHEREAS, the undersigned, being the owners of the following described real property located in the city of Syracuse, Davis County, State of Utah, to-wit:

lots 30 to 53 inclusive, Sunset Farms No. 2 according to the official plat thereof, as recorded in the office of the County Recorder of said County, do hereby establish the nature of the use and enjoyment of all lots in said subdivision and do declare that all conveyances of said lots shall be made subject to the following conditions, restrictions and stipulations.

✓ 12-420-0030 thru 12-420-0053, inclusive

PART B. RESIDENTIAL AREA COVENANTS

1. Land use and Building type. No lot shall be used for any use other than single family residence. There shall not exist on any lot at any time more than one residence. No out building, barn, shed, guest house or structure shall be erected on any lot in the subdivision without approval in writing from the Architectural Control Committee. Every garage shall be constructed as an integral part of the residence it is intended to serve and shall be of sufficient size for at least two automobiles. All construction is to be of new materials. Exterior veneer may be stone, brick, stucco, aluminum, or wood combinations, but at least 100% of the front shall be brick, stone, or stucco for all homes. Used brick may be used with prior written approval of the Architectural Control committee. All homes shall have organic, tile or wood shake roofs. All roofs shall have a minimum of a 5/12 pitch. A lesser pitch must be approved by the Architectural Control Committee. All designs must be in basic harmony with the theme of the subdivision as per review by the Architectural Control Committee.

The Committee is entitled to approve plans and specifications which are not in strict compliance with these covenants if the Committee determines such would be in the best interest of the subdivision.

2. Architectural Control. No dwelling shall be erected, placed, or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence or wall shall be erected, placed, or altered on any lot nearer to any street than the front of the building setback line unless similarly approved. Approval shall be as provided in Part C.

E 1663724 B 2815 P 550

3. Building Size. No building shall be permitted on any lot with the ground floor area of the main structure, exclusive of open porches and garages, of less than 1300 square feet for one story dwellings, ramblers, and bi-levels, nor less than 900 square feet ground floor area, with a total of not less than 1800 square feet, for a two story dwelling. Split level homes with four or more levels shall be reviewed individually, but shall have no less than 1400 square feet finished above ground grade as compared to a two story structure. The construction materials for each home shall be of a quality equal to or superior to FHA or VA requirements.

4. Building Location

(a) All dwellings must meet Syracuse City's required setbacks for this residential zone. In some instances, the city's requirements may be more restrictive than those described below. Where a disparity exists, the more restrictive requirements apply.

(b) No building shall be located on any lot nearer than 30 feet to the front lot line, or nearer than 20 feet to any side street line.

(c) No dwelling shall be located nearer than 8 feet to any interior lot line. A detached garage and any other permitted accessory building may be located within three feet of the rear and side property boundaries, as long as such buildings do not encroach upon any easements.

(d) For the purpose of this covenant, eaves, steps, and open porches shall not be considered as part of a building, provided however, that this shall not be interpreted to permit any portion of any building on a lot to encroach upon another lot.

5. Easement. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat. Within these easements, no structures, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and

maintenance of utilities, or which may change the direction of flow of the drainage channels in the easement, or which may obstruct or retard the flow of water through the drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

6. Nuisances. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood. No clothes drying or storage of any articles which are unsightly in the opinion of the Architectural Control Committee will be permitted unless in enclosed areas designed for such purposes. No automobiles, trailers, boats, or other vehicles are to be stored on streets or front or side lots unless they are in running condition, properly licensed and are being regularly used.

7. Temporary Structures. No structure of a temporary character, trailer, basement, tent, shack, garage, barn, or other outbuilding shall be used on any lot at any time as a residence either temporarily or permanently. No mobile homes permitted.

8. Signs. No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot. One sign of not more than five square feet advertising the property for sale or rent, or signs of reasonable size (up to 4' x 8') may be used by a builder to advertise the property during the construction and sales period. For a model home, developer may display two such signs.

9. Livestock and Poultry. No animals, livestock, or poultry of any kind shall be raised, bred, or kept on any lot, except that dogs, cats, or other household pets may be kept provided that they are not kept, bred, or maintained for any commercial purpose and are restricted to the owner's premise or on a leash under handler's control.

10. Garbage and Refuse Disposal. No lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage, or other waste shall not be kept except in sanitary containers. All equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition. Each lot and its abutting street are to be kept free of trash, weeds, and other refuse by the lot owner. No unsightly materials or other objects are to be stored on any lot in view of the general public.

11. Sight Distance at Intersection. No fence, wall, hedge, or shrub which obstructs sight lines at elevation between 2 and 6 feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points 25 feet from the intersection of the street lines, or in case of a rounded property corner, from the intersection of the street property lines extended. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines. Syracuse City requirements for intersection sight protection shall be enforced.

12. Oil and Mining Operations. No oil drilling, oil development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted upon any lot.

13. Landscaping. Trees, shrubs, or other plantings provided by the developer shall be properly nurtured and maintained or replaced at the property owner's expense upon request of the Architectural Control Committee.

14. Slope and Drainage Control. No structure, planting or other material shall be placed or permitted to remain or other activities undertaken which may damage or interfere with established slope ratios, create erosion or sliding problems, or which may change the direction of flow of drainage channels. The slope control areas on each lot and all improvements in them shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

PART C. ARCHITECTURAL CONTROL COMMITTEE

1. Membership. The committee may designate a representative to act for it. In the event of death or resignation of any member of the committee, the remaining members of the committee shall have full authority to select a successor. Neither the members of the committee, nor its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. At any time, the then record owners of a majority of the lots shall have the power through a duly recorded written instrument to change the membership of the committee or to withdraw from the committee or restore to it any of its powers and duties. The Architectural Control Committee is composed of Dee R. Staples, Gary Lessig, and Clare B.

Niederhauser.

2. Procedure. The Committee's approval or disapproval as required in these covenants shall be in writing. In the event the committee, or its designated representative fails to approve or disapprove within 30 days after plans and specifications have been submitted to it, or in any event, if no suit to enjoin the construction has been commenced prior to the completion thereof, approval will not be required, and related covenants shall be deemed to have been fully complied with. A copy of the plans signed by both parties will be held by the committee and one copy will be held by the builder on the site at all times.

PART D. GENERAL PROVISIONS

1. Term. These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of twenty years from the date these covenants are recorded, after which time, said covenants shall be automatically extended for successive periods of ten years unless an instrument signed by a majority of then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

2. Enforcement. Enforcement shall be by proceeding at law or in equity against any person or persons violating or attempting to violate any covenant either to restrain violation or to recover damages.

3. Severability. Invalidity of any one of these covenants by judgment or court order shall in no way affect any of the other provisions which shall remain in full force and effect.

4. Amendment. These covenants are to run with the land and shall be binding on all parties and all persons under them unless an instrument signed by seventy-five percent of the then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

THIS DECLARATION is made this 24th Day of May, 2001.
