WASATCH CO RECORDER-ELIZABETH M PARCEL
1995 MAY 31 11:26 AM FEE \$99.00 BY I
REQUEST: SNAKE CREEK MUTAL WATER COMP

To: All stockholders of the SCMWC

Subject: Statement of position of the Snake Creek Mutual Water
Company address: P.O. Box 11958 Salt Lake City, UT 84147

The SCMWC is a public, non-community water system, legally registered with the State of Utah to deliver an adequate quantity and quality of drinking water for part-time, recreational, inside use only, to cabin and property owners within the ~~J & K~~ ^{CPH} subdivisions in Wasatch County, Utah.

The SCMWC can, at its option, ^{CPH} provide water to other than the property owners of the ~~J & K~~ subdivisions providing the use of the water is limited to inside culinary use only, as stated above for the J & K subdivisions, and such usage will be in compliance with the rules handed down by the Utah State Department of Environmental Quality as they pertain to a non-community public water system and the SCMWC's legal ability to provide the water.

The SCMWC asks that the ^{CPH} County planner NOT issue a building permit within the ~~J & K~~ subdivisions until the SCMWC approves the application. The SCMWC shall oversee any and all connections to its system and will not connect any that have not paid the current "hookup" fee and satisfied all current and past due assessments, dues and other charges against the shares held by the property owner.

The SCMWC requires an affidavit statement from all its shareholders acknowledging the rules as stated above and is making this statement public so others will be aware of the rules that the SCMWC is subject to, and will enforce.

The SCMWC is aware of its obligation to monitor and maintain the water system in compliance with State and local regulations.

Board of Directors, SCMWC
May 5, 1995

Signed, Carter Frazier, President
