A

1. Land Use and Building Type. No lot will be used except for residential purposes. No building will be erected, altered, placed, or permitted to remain on any lot other than a detached single family dwelling not to exceed two (2) stories in height and not less than (2) or more attached garages. No carports are allowed. All construction to be of new materials. All construction requires Weber County permit.
2. No construction will commence until the plans and specifications including the location of the construction has been approved by the architectural control committee to assure the quality of workmanship and the materials are in keeping with the exterior designs of existing homes. Location of the building will be evaluated with respect to finish elevation.
3. Two complete sets of plans must be submitted to the committee, one signed and returned to the contractor and one signed set will be retained in a permanent file by the committee. The committee is entitled to approve plans and specifications which are not in strict compliance with these covenants, if the committee determines such would be in the best interest of the subdivision.
4. Dwelling Quality and Size. Any one-story residence shall contain not less than 1800 square feet of living space, exclusive of porches, garages, and patios. Any two-story residence shall contain not less than 2400 square feet of living space on the ground and upper level, with not less than 1600 square feet on ground level.
