This patent is issued under the provision that, if the patentee or its successor, attempts to transfer title to or control over the lands to another or the lands are devoted to a use other than that for which the lands were conveyed, without the consent of the Secretary of the Interior or his delegate,

title shall revert to the United States.

If the patentee or its successor in interest does not comply with provisions of the approved plan of development and management, filed on June 11, August 22, September 19, and October 5, 1968 with the Bureau of Land Management, or with any revision approved by the Secretary of the Interior or his delegate, said Secretary or his delegate, after due notice and opportunity for a hearing, may declare the terms of this grant terminated in whole or in part. The patentee, by acceptance of this patent, agrees for itself and its successor in interest that such declaration shall be conclusive as to the facts found by the Secretary or his delegate and shall, at the option of the Secretary or his delegate, operate to revert in the United States full title to the lands involved in the declaration.

The Secretary or his delegate may in lieu of said forfeiture of title for failure to comply with the approved plan of development and management require the patentee or its successor in interest to pay the United States an amount equal to the difference between the price paid for the land by the patentee prior to issuance of this patent and 50 percent of the fair market value of the patented lands, to be determined by the Secretary or his delegate as of the date of issuance of this patent, plus compound interest computed at four percent beginning on the date this patent is issued.

The grant of the herein described lands is subject to the following reservations, conditions, and limitations:

(1) The patentee or its successor in interest shall comply with and shall not violate any of the terms or provisions of Title VI of the Civil Rights Act of 1964, 78 Stat. 241, and requirements of the regulations, as modified or amended, of the Secretary of the Interior issued pursuant thereto, 43 CFR 17; for the period that the lands conveyed herein are used for the purpose for which the grant was made pursuant to the act cited above, or for another purpose involving the provision of similar services or benefits.

(2) If the patentee or its successor in interest does not comply with the terms or provisions of Title VI of the Civil Rights Act of 1964, and the requirements imposed by the Department of the Interior issued pursuant to that title, during the period during which the property described herein is used for the purpose for which the grant was made pursuant to the act cited above, or for another purpose involving the provision of similar services or benefits, the Secretary of the Interior or his delegate may declare the terms of this grant terminated in whole or in part.

(3) The patentee, by acceptance of this patent, agrees for itself or its successor in interest that a declaration of termination in whole or in part of this grant shall, at the option of the Secretary or his delegate, operate to revert in the United States full title to the lands involved in the declaration.

(4) The United States shall have the right to seek judicial enforcement of the requirements of Title VI of the Civil Rights Act of 1964, and the terms and conditions of the regulations, as modified or amended, of the Secretary of the Interior issued pursuant to said Title VI, in the event of their violation by the patentee.

(5) The patentee or its successor in interest will, upon request of the Secretary of the Interior or his delegate, post and maintain on the property conveyed by this document signs and posters bearing a legend concerning the applicability of Title VI of the Civil Rights Act of 1964 to the area or facility conveyed.

(6) The reservations, conditions, and limitations contained in paragraphs (1) through (5) shall constitute a covenant running with the land, binding on the patentee and its successor in interest for the period for which the land described herein is used for the purpose for which this grant was made, or for another purpose involving the provision of similar services or benefits.

(7) The assurances and covenant required by sections (1)-(6) above shall not apply to ultimate beneficiaries under the program for which this grant is made. "Ultimate beneficiaries" are identified in 43 CFR 17.12(h) (1967 edition).

IN TESTIMONY WHEREOF, the Secretary of the Interior, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Department of the Interior to be hereunto affixed.

GIVEN under my hand, in Salt Lake City, Utah the EIGHTEENTH day of OCTOBER in the year of our Lord one thousand nine hundred and SIXTY-EIGHT and of the Independence of the United States the one hundred and NINETY-THIRD.
