The foregoing right of access is intended to run with and encumber Grantor’s Land unless expressly released in writing by Grantee.

3. Grantor's Use of the Easement Area. Grantor expressly reserves all rights to use the Easement Area for purposes not granted to Grantee, including but not limited to the installation and operation of underground utilities, the construction and maintenance of roads, and other improvements, to the extent that the lawful exercise of such reserved rights does not materially interfere with Grantee's use of the Easement Area. Grantor expressly agrees that within the Easement Area, Grantor will not: a) construct any building or structure of any kind or nature; b) excavate closer than fifty feet (50') from any pole or structure; c) excavate anywhere in the Easement Area in a manner that undermines or removes lateral support from any pole or structure, or that prevents or impairs Grantee's access to any pole or structure; d) place or use anything, including equipment or vehicles that exceeds fourteen feet (14') in height; or e) increase the existing ground elevation; f) light any fires or store flammable or hazardous materials.

Grantee shall not allow any of their employees, agents, independent contractors (collectively, "Workers") or equipment on the Easement Area if such Workers or equipment have come in contact with any swine or swine waste. The terms "swine" and "swine waste" shall include, for the purposes of illustration and not as limitation, any pig carcasses, manure, waste, discharge, or any other substance capable of transmitting disease or carrying disease from any swine that are not owned by Grantor. To fulfill this obligation, Grantee shall abide by the following terms:

5.1. Grantee shall not hire, retain, or contract any Worker for work on the Easement Area that has had or anticipates having any contact with swine or swine waste. The Workers shall also be instructed to inform Grantor immediately if they have contact with swine or swine waste at any time. Such Workers shall not be allowed onto the Easement Area for ninety (90) days following contact with the swine or swine waste.

5.2. Grantee shall have a personal knowledge of or inquire of the history of all equipment to be brought onto the Easement Area (i.e., cranes, forklifts, etc.), and shall not bring any equipment on the Easement Area for ninety (90) days following contact with the swine or swine waste.

5.3. If Grantee discovers that any Workers or equipment have had contact with swine or swine waste, the Workers or equipment shall be removed from the Easement Area immediately and Grantee shall notify Grantor within two (2) hours of the discovery of the contact with swine or swine waste.

5.4. If Grantee fails to notify Grantor of any contact with swine or swine waste, Grantee shall be liable for all actual damages suffered by Grantee as a result of the violation of the provisions of this paragraph 5, provided, however that in no event shall

Grantee be liable for economic losses, costs or damages, including but not limited to special, indirect, incidental, consequential, punitive, or exemplary damages.
