All roofing materials shall be architectural asphalt, tile or wood shingles. No dwelling or garage shall be erected with less than 30% brick or native stone and the balance to be stucco on the front facing the street. The sides and back may be aluminum or vinyl siding or combination of the above decors.

No dwelling placed on a lot shall be prefabricated, manufactured or of any similar construction.

No building shall be located on any lot nearer than 30 feet to the front lot line, nor nearer than 20 feet to any side street line. The minimum distance from the main building of the rear lot line shall be 20 feet. For the purpose of this covenant, eaves, steps and porches shall not be considered as a part of the building, provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot. A detached garage and/or carport or other permitted accessory building may be located next to a side lot line in accordance with Perry City Zoning Ordinance. Perry City can modify or change any of the requirements listed herein. The minimum side yard is eight feet, but a total of no less than 22 feet on both sides.

2. **PLAN INSPECTIONS.** One complete set of plans must be submitted along with a \$75.00 "Review Fee" to the Architectural Control Committee prior to obtaining a building permit. No building shall be erected, placed or altered on any lot until the construction plans and specifications and plans showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to locations with respect to topography and finish grade, elevation and meet Perry City requirements. No fence or wall shall be erected, placed or altered on any lot nearer to any street than the minimum building set back line unless similarly approved.

In the event of death or resignation of any member of the committee, the remaining members shall have full authority to designate a successor. None of the members of the committee, nor its designated representative, shall have full authority to designate a successor. At any time, the current owners of record of a majority of the lots shall have the power through a duly recorded written instrument to change the membership of the committee or to restore to the committee any of its power or duties. The committee's approval or disapproval as required in these covenants shall be in writing. In the event the committee, or its designated representative fails to approve or disapprove within 30 (Thirty) days after plans and specifications have been submitted to it, or in any event, if no suit to enjoin the construction has been commenced prior to the completion thereof, approval will not be required and related covenants shall be deemed to have been duly complied.

3. **ERECTION OF STRUCTURE.** Upon recording of the lot, the construction process of the permanent residence must start within 18 (eighteen) months. Failure to begin construction within the time frame will result in owner of lot being required to sell the lot for not more than 5% above the current market value. The sale of the lot must be "open and notorious" and include a sign stating "For Sale" or a sign from a reputable real estate company.

4. **LANDSCAPING.** All family dwellings shall be planted in lawn or other acceptable landscaping in the front yard within one year of occupancy. To protect and not negatively impact the esthetics of the subdivision, the side and back yards shall be
