DECLARATION OF BUILDING AND USE RESTRICTIONS

PART A
PREAMBLE

KNOW ALL MEN BY THESE PRESENTS:

That whereas, the undersigned, being the owners of the following described real property located in Salt Lake County, State of Utah, to wit:

Lots 301 to 358, both inclusive, DIMPLE DELL
VILLAGE NO. 3, according to the plat there-
of, as recorded in the office of the County
Recorder of said County

do hereby establish the nature of the use and enjoyment of all
lots in said subdivision and do declare that all conveyances of
said lots shall be made subject to the following conditions,
restrictions and stipulations:

PART B
RESIDENTIAL AREA COVENANTS

1. Land Use and Building Type. No lot shall be used except
for residential purposes. No building shall be erected, al-
tered, placed or permitted to remain on any lot other than one
detached single-family dwelling not to exceed two stories in
height and a private garage for not more than three vehicles.
Carports are expressly prohibited. All construction shall be
of new materials and must be at least 50% brick unless other-
wise approved by Architectural Control Committee. No pre-
fabricated houses shall be permitted and no structure shall be
moved onto any lot in said subdivision.

SECURITY TITLE COMPANY

BOOK 4612 PAGE 251

2. Architectural Control. No building shall be erected, placed or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence or wall shall be erected, placed or altered on any lot nearer to any street than the minimum building setback line unless similarly approved. Approval shall be as provided in Part C.

3. Dwelling Cost, Quality and Size. No dwelling shall be permitted on any lot at a cost of less than \$50,000 including lot, based upon cost levels prevailing on the date these covenants are recorded, it being the intention and purpose of the covenants to assure that all dwellings shall be of a quality of workmanship and materials substantially the same or better than that which can be produced on the date these covenants are recorded at the minimum cost stated herein for the minimum permitted dwelling size. The ground floor area of the main structure, exclusive of one-story open porches and garages, shall be not less than 1500 square feet, except that split entry type dwellings with garages built into the lower level shall have a minimum of 1700 square feet exclusive of garages and open porches. Two-story dwellings shall have no less than 2200 square feet finished floor space above ground.

4. Building Location.

(a) No building shall be located on any lot nearer to the front lot line or nearer to the side street line than the minimum building setback lines shown on the recorded plat. In any event, the minimum depth of the front yard from main buildings and for private garages which have a minimum side yard of 8 feet shall be 20 feet. All accessory buildings (other than private garages which have a side yard of at least 8 feet) shall be located at least 6 feet in the rear of the main building.

(b) The minimum side yard of any dwelling shall be 8 feet and the total width of the two required side yards shall not be less than 18 feet. The minimum side yard for accessory buildings shall be 8 feet, if said accessory buildings are located less than 6 feet in the rear of the main building. For accessory buildings, all parts of which are located a distance of greater than 6 feet in the rear of the main building, no minimum side yard shall be required provided the walls are constructed of fire-resistive materials of two hours or more. Accessory buildings having walls which are not constructed of such fire-resistive materials shall have a side yard of at least 8 feet. No accessory building shall be located closer than ten feet to a dwelling on an adjoining lot. On corner lots, the side yard which faces on a street for both main and accessory buildings shall not be less than 15 feet.

(c) For the purpose of this covenant, eaves, steps and open porches shall not be considered as a part of a building;

provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot.

5. Lot Area and Width. No dwelling shall be erected or placed on any lot having a width of less than 80 feet at the minimum building setback line nor shall any dwelling be erected or placed on any lot having an area of less than 8000 square feet, except that a dwelling may be erected or placed on all corner and cul-de-sac lots, as shown on the recorded plat, provided that the above front and side yard clearances are maintained.

6. Easement. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

7. Nuisances. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereupon which may be or may become an annoyance or nuisance to the

neighborhood. No clothes drying or storage of any articles which are unsightly in the opinion of the Architectural Control Committee will be permitted, unless in enclosed areas built and designed for such purpose. No automobiles, trailers, boats or other vehicles are to be stored on streets or front and side lots unless they are in running condition, properly licensed and are being regularly used. No ham radio antennas shall be permitted.

8. Temporary Structures. No structure of a temporary character, trailer, basement, tent, shack, garage, barn or other outbuildings shall be used on any lot at any time as a residence either temporarily or permanently.

9. Signs. No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot, one sign of not more than five square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sales period.

10. Livestock and Poultry. No animals, livestock or poultry of any kind shall be raised, bred or kept on any lot, except that two dogs, two cats or other household pets may be kept; provided that they are not kept, bred or maintained for any commercial purposes and are restricted to the owner's premises or on leash under handler's control.

11. Garbage and Refuse Disposal. No lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage or other waste shall not be kept except in sanitary containers. All incinerators or other equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition. Each lot and its abutting street are to be kept free of trash, weeds and other refuse by the lot owner. No unsightly materials or other objects are to be stored on any lot in view of the general public.

12. Sight Distance at Intersection. No fence, wall, hedge or shrub planting which obstructs sight lines at elevations between two and six feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points 25 feet from the intersection of the street lines, or in case of a rounded property corner from the intersection of the street property lines extended. The same sight-line limitations shall apply on any lot within ten feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

13. Oil and Mining Operations. No oil drilling, oil development operations, oil refining, quarrying or mining operations of any

kind shall be permitted upon or in any lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted upon any lot.

14. Landscaping. Trees, lawns, shrubs or other plantings provided by the developer shall be properly nurtured and maintained, or replaced at the property owner's expense upon request of the Architectural Control Committee.

15. Slope and Drainage Control. No structure, planting or other material shall be placed or permitted to remain or other activities undertaken which may damage or interfere with established slope ratios, create erosion or sliding problems, or which may change the direction of flow of drainage channels or obstruct or retard the flow of water through drainage channels. The slope control areas of each lot and all improvements in them shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

PART C
ARCHITECTURAL CONTROL COMMITTEE

1. Membership. The Architectural Control Committee is composed of Richard H. Lawler and Morris W. Stuart. In the event of death or resignation of either member of said committee, the remaining member shall have full authority to approve or disapprove

such design and location, or to designate a representative with like authority. In the event both members of said committee die, or in the event the committee ceases to function, then 50% of the owners of the lots in said subdivision shall have the right to elect a committee. Neither the members of such committee, nor its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. This committee shall have the right to vary the requirements as set forth in Part B-1, but said variance shall not be valid unless obtained in writing.

2. Precedure. The Committee's approval or disapproval as required in these covenants shall be in writing. In event said committee, or its designated representative, fails to approve or disapprove such design and location thirty (30) days after said plans and specifications have been submitted to it, or in any event, if no suit to enjoin the erection of such building or the making of such alterations have been commenced prior to completion thereof, such approval will not be required and this covenant will be deemed to have been fully complied with.

PART D GENERAL PROVISIONS

1. Term. These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of forty (40) years from the date these covenants are recorded, after which time said covenants shall be auto-

matically extended for successive periods of ten (10) years unless an instrument signed by a majority of the ten owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

2. Enforcement. Enforcement shall be by proceedings at law or in equity against any person or persons violating or attempting to violate any covenant either to restrain violation or to recover damages.

3. Severability. Invalidation of any one of these covenants by judgment or court order shall in no wise affect any of the other provisions which shall remain in full force and effect.

INVEST 73 LTD.,

a Utah Limited Partnership

INVEST INC.
By Richard H. Lawler Jr. President
General Partner

STATE OF UTAH)
) ss.
County of Salt Lake)
