It is the intention and purpose of this Declaration to impose architectural standards on the Improvements to any Lot of a type and nature that result in buildings which are architecturally compatible in terms of Lot coverage, proportion, materials, colors and general appearance, while at the same time allowing for appropriate diversity in style and design. To accomplish this goal, the Declarant hereby establishes the Committee which is empowered to oversee and enforce the architectural design standards set forth in the Declaration.

3.1 Architectural Control Committee Created: The Architectural Control Committee (the “Committee”) will consist of two members. The initial Committee will consist of Jerry Preston, Erik Craythorne. After 90% of the Lots have been built on (i.e., certificates of occupancy have been issued by the City): (A) any Committee member may be removed at any time by the vote of a majority of the Owners (determined by the number of Lots); (B) any vacancy on the Committee will be filled by a vote of the Owners by majority vote (determined by the number of Lots); and (C) all Committee members must be Owners.

However, the Committee may wish to retain a qualified planning or architectural professional to handle the day to day work of the Committee.

3.2 Approval by Committee Required: Improvements of any kind, including without limitation, the construction of any Dwelling, garage, or out-building in excess of 100 square feet shall require approval of the Committee. Approval of the Committee will be sought in the following manner:

(A) Plans Submitted: Plans for the construction of any new Dwelling or other structure on the Lot must be submitted to the Committee for review. The plan must be in sufficient detail to show the location on the Lot of the exterior walls of the Dwelling or other structure. The plan shall also include a detailed drawing of all elevations of all buildings, showing locations of windows, doors, roof pitches, decks, and other exterior elements. In the case of an addition or modification of

an existing Dwelling, the Committee may waive any of the foregoing it feels are unnecessary to its review of the remodel or addition.

(B) Review Fee: The applicant may be asked to pay a review fee to the Committee in an amount necessary to cover the cost of review and administration of the program in an account to be established from time to time by the Committee. The initial fee shall be \$200.00 for each new Dwelling and \$50.00 for each addition or remodel. The Committee may increase these fees, from time to time, to take into account inflation and other appropriate factors.

(C) Review: Within 15 days from receipt of a complete submission, the Committee will review plans and make an initial determination whether or not the plans comply with the conditions imposed by this Declaration. If they do not, the plans will be rejected. If the plans are in compliance, the Committee will approve the plans. The Committee may also approve the plans subject to specific modifications or conditions. Owners may desire to submit preliminary plans for review. The Committee will review preliminary plans and make its comments known to the Owner; provided, however, that no preliminary approval is to be considered a final approval and no final approval will be granted on less than a complete submission. Upon approval, the Committee and the Owner will each sign a copy of the plans, one of which shall be left with the Committee. No construction that is not in strict compliance with the approved plans will be permitted.

(D) Failure to Act: If the Committee has not approved or rejected any submission within 45 days after submission of complete plans, the submission shall be deemed to have been disapproved.

3.3 Variances: Variances to the design standards contained in this Declaration may be granted when strict application would create an unforeseen or unreasonable hardship to the Owner of any Lot; provided, however, that any variance granted pursuant to this Section 3.3 must be consistent with the intent of this Declaration. The Committee cannot grant any variance that has the effect of modifying applicable zoning or building code regulations. The burden of obtaining a variance is entirely on the applicant.

3.4 General Design Review: The Committee will use its best efforts to provide a consistent pattern of development and consistent application of standards of this Declaration. These standards are, of necessity, general in nature, and it is the Committee's responsibility to apply them in a manner that results in a high quality, attractive, and well-designed community.

3.5 Declarant and Committee not Liable: The Declarant, the Committee, and its members shall not be liable to the applicant or to the Owners for any damages to the Owners of any Lots within the Subdivision for their actions, inactions, or approval or disapproval of any set of plans submitted to the Committee for review. The Committee prior to construction must approve corrections or changes in plans to bring them into conformity with applicable codes.

3.7 Penalty for Failure to File Plans with Committee: The Committee is authorized to retain legal counsel and to instigate legal proceedings against any Owner, contractor, or any other person or entity who proceeds with construction on any Lot without first applying for and receiving the approval of the Committee. The Committee may give 10 days written notice of such failure to file plans and then may proceed with any and all legal remedies. Or, if the Committee believes that more prompt action is required, the Committee may forego the 10-day notice and proceed immediately to pursue legal remedies.
