**CONTRACT BETWEEN WEBER BASIN WATER CONSERVANCY DISTRICT AND
John Marshall
FOR THE ALLOTMENT OF WATER**

THIS CONTRACT, made this 18 day of May, 20 23, by and between
Weber Basin Water Conservancy District, organized under the laws of the State of Utah, (herein
"District") and John Marshall, of Weber County, Utah (herein "Purchaser") (the Contract).

1. SALE OF WATER. The District will sell to the Purchaser, and the Purchaser agrees
to purchase from the District, the perpetual right to use in each calendar year as
hereinafter specified untreated District water for irrigation purposes in and upon the
following described lands in Weber County, Utah:

Section 23, Township 6N, Range 2W, Acres 0.09

Parcel No.(s): 15-758-0024

Description of Lands:

ALL OF LOT 224, HAVEN PARKWAY PHASE 2, WEST HAVEN CITY, WEBER COUNTY,
UTAH.

2. OBLIGATION TO PAY. In Consideration of such allotment and upon condition that
this contract is granted by the District, Purchaser agrees:
 - 2.1. To pay for the right to use District allotted water annually, which payment
initially shall be \$34.58, as such payment amounts may thereafter be adjusted

annually by the District's Board of Trustees, as outlined herein below. A portion of the above payment amount is to be applied to the extent required on the District's obligations under bonds or other government-District Contracts or capital expenditures and is to be fixed from time to time by the District's Board of Trustees. The remainder of the above payment amount is to apply to the District's general operation, maintenance, and repair and replacement expenses and other special expenses and costs incurred in operating, maintaining, repairing and replacing the separate facilities of the District used or required in servicing this Contract, hereinafter referred to as "OM&R". Such fair OM&R amounts shall be estimated each year by the Board of Trustees of the District, and any such determination shall be final and conclusive and binding on all parties. If such estimate is more than the actual cost thereof, an appropriate adjustment will be made in the annual OM&R amount for the year following the year for which the estimate was made.

- 2.2. The amount so fixed shall be paid whether or not Purchaser actually takes or uses the water allotted.
- 2.3. The amounts so fixed shall be paid by the Purchaser to the District concurrently with the presentation of this agreement to the District and shall be in payment for water available for use by Purchaser in the 2023 calendar year. Succeeding annual payments shall be made by the Purchaser to the District on or before January 1 of each year thereafter. The Purchaser shall be bound by the rules and regulations of the District's Board of Trustees. Nothing contained in this paragraph shall be construed to exempt the Purchaser from paying the taxes levied.
- 2.4. The charges specified in this paragraph (2) shall remain effective against the Lands herein described, provided however that (i) the District may reallocate the water allotted pursuant to this petition, and the charges specified in this paragraph (2), to parcels of said land in separate ownership in accordance with the rules and regulations of the District; and (ii) further provided that the District is expressly entitled to, as a condition to the continued receipt of water on the Lands require any subsequent purchaser and/or owner of the Lands, or any portion of the Lands, to execute a new Contract, assignment, and/or assumption agreement containing water purchase Contract terms that are consistent with the then prevailing District policies and procedures.
- 2.5. Notwithstanding any of the forgoing, the District shall be entitled to change the charging structure of this Contract, including the amounts charged under

this Contract, as determined from time to time by the District's Board of Trustees. The District may, in its sole and absolute discretion, change the billing structure outlined herein, including but not limited to changing the billing structure so that the Purchaser is billed based on the amounts of water used ("bill for use"), such that the District may choose to charge by the unit or gallon delivered or used, and may institute tiers that provide for increasing charges for each such unit based on the total use. As outlined in this Contract, Purchaser is obligated to install appropriate metering and measuring devices. Purchaser agrees that any such meter will satisfy all requirements of the District and will properly measure water usage, which measurements may be used by the District in determining any overuse, as outlined below, and in determining the appropriate charge under any bill for use payment structure adopted by the District under this paragraph.

- 2.6. The volume District allotted water shall be determined on an annual basis by the District, in its sole and absolute discretion. This volume will be based on the District's determination of the appropriate water volume for the Lands, considering then existing land size, landscaping and hardscape, efficient watering practices and irrigation technologies. The District shall be entitled to change the volume of District allocated water as determined from time to time by the District's Board of Trustees to reflect advancing irrigation technologies, changing landscaped and improvements to irrigation practices that may result in more efficient irrigation practices.
3. **PENALTY FOR DELINQUENCY.** Every installment or charge required to be paid to the District under this Contract, which shall remain unpaid after its due date, shall bear interest from date of delinquency at a rate of 18% APR.
4. **REMEDIES IN CASE OF DEFAULT.** If the Purchaser shall fail to make any payment due hereunder on or before the due date, or in the event that the Purchaser shall violate any of the terms of this Contract, the District may refuse the delivery of water, or upon written notice to Purchaser, cancel this Contract in its entirety, but either or both of these remedies are not exclusive. The District may exercise any other remedy given by this Contract or by law to enforce collection of any payment due hereunder.
5. **DELIVERY OF WATER.** District water so allotted shall be delivered and measured at a point or points designated by the District. It shall not be the responsibility of the District to provide facilities to convey the water from such point or points to the place of use. The District may use any water available to the District to the extent that it can

be delivered at points where it can be used. Purchaser agrees to bear a pro rata share of all conveyance and evaporation losses. Purchaser shall install, at their own cost and at no cost to the District, a water meter, a customer value, and all other equipment necessary to meet current District standards.

6. SECURITY. The District may, as a condition of this Contract, require security to be pledged and committed by the Purchaser in addition to that security required in this Contract in order to insure and secure payments so required in this Contract. The sufficiency and form of security shall be determined by the District. Purchaser hereby agrees to commit to the District sufficient security as determined by the District and to supply whatever documentation is required by the District prior to this Contract becoming effective, wherein such commitment and documentation shall be a condition precedent to this Contract.
7. OVERUSE. The amount of water to which the Purchaser is entitled annually shall be determined annually by the District and be based on efficient watering practices and landscape needs. The Purchaser water use shall not exceed the allotted amount as described above. In the event that Purchaser receives water in excess of the allotted amount in any given year, whether intentionally or unintentionally, the Purchaser may be billed for the excess water at a rate or rates fixed from time to time by the Board of Trustees of the District and/or have service discontinued for the remainder of the year, in such manner as outlined in the District's then existing Policies and Procedures. Payment for use of water in excess of the allotted amount shall be paid within 30 days from notification by the District. Failure to make payment in full by the due date may result, at the District's sole discretion, in the discontinuation of service until payment in full is received by the District. Additionally, the repeated and/or excessive exceeding of the allotted amount, may result, at the District's sole and absolute discretion, in the discontinuation of service.
8. WATER SHORTAGE. In the event there is a shortage of District water caused by drought, inaccuracy in distribution not resulting from negligence, hostile diversion, prior or superior claims, or other causes not within the control of the District, no liability shall accrue against the District, or the United States, or any of their respective officers, agents, or employees for any damage, whether direct or indirect, arising therefrom and the payments to the District provided for herein shall not be reduced because of any such shortage or damage. During periods of water shortages, allocations of drinking water for municipal and domestic use and treated and untreated water for industrial use shall have first priority.

9. **WATER CONSERVATION.** The Purchaser shall, at a minimum, take the following actions to conserve and protect water: (i) keep water use within the District's conservation goals (ii) follow all applicable water use restrictions for landscape watering; (iii) follow all applicable landscape ordinances.
10. **PERIODS OF DELIVERY.** In no event shall the District be required to make deliveries of water hereunder other than during the irrigation seasons, the extent of which shall be determined solely by the District.
11. **BENEFICIAL USE.** The basis, the measure and the limit of the right of the Purchaser in the use of water shall rest perpetually in the beneficial application thereof, and the Purchaser agrees to put the water allotted Purchaser hereby to beneficial use in accordance with law. The Purchaser shall have no right to hold over or accumulate water from year to year, nor to sell or rent the water.
12. **COMPLIANCE WITH LAW.** The Purchaser agrees to comply fully with all applicable federal laws, orders and regulations, and the laws of the State of Utah, all as administered by appropriate authorities, concerning the pollution of streams, reservoirs, ground water, or water courses with respect to thermal pollution or the discharge of refuse, garbage, sewage effluent, industrial waste, oil, mine tailings, mineral salts or other pollutants.
13. **INDEMNIFICATION.** Purchaser agrees to indemnify, protect, and save and hold the District harmless against and in respect of any and all claims, losses, liabilities, damages, costs, deficiencies or expenses (including attorney's fees) resulting from any claim for any rights under the Contract or from the non-fulfillment of any covenant or agreement on the part of Purchaser under or relating to this instrument, and any and all actions, suits, proceedings, demands, assessments, judgments, costs, legal and accounting fees and other expenses incident to any of the foregoing.
