PART A. PREFABLE

KNOW ALL MEN BY THESE PRESENTS

THAT, WHEREAS, the undersigned, being the owners of the following described real property located in the City of West Jordan, Salt Lake County, State of Utah, to-wit:

Lots 1 to 33 inclusive, Greenfield
Meadows Subdivision, according to the
plat thereof, as recorded in the
Office of the County Recorder of said
County,

do hereby establish the nature of the use and enjoyment of all lots in said subdivision and do declare that all conveyances of said lots shall be made subject to the following conditions, restrictions and stipulations:

PART B. RESIDENTIAL AREA COVENANTS

1. Land Use and Building Type. No lot shall be used except for residential purposes. No building shall be erected, altered, placed or permitted to remain on any lot other than one detached single-family dwelling not to exceed two and one-half stories in height and an attached garage for not less than two cars, but no more than three cars. All construction to be of new materials, except that used brick may be used with prior written approval of the Architectural Control Committee.

2. Architectural Control. No building shall be erected, placed, or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence or wall shall be erected, placed or altered on any lot nearer to any street than the minimum building setback line unless similarly approved. Approval shall be as provided in Part C.

3. Dwelling Cost, Quality and Size. No dwelling shall be permitted on any lot at a cost of less than \$35,000.00 exclusive of the lot, based upon cost levels prevailing on the date these covenants are recorded, it being the intention and purpose of the covenants to assure that all dwellings shall be of a quality of workmanship and materials substantially the same or better than that which can be produced on the date these covenants are recorded at the minimum cost stated herein for the minimum permitted dwelling size. The main floor area of the main structure, exclusive of one-story open porches and garages, shall not be less than 1,000 square feet. All homes must include an attached two-car garage.

BOOK 4939 PAGE 342

4. Building Location.

(a) No building shall be located on any lot nearer than thirty (30) feet to the front lot line, or nearer than twenty (20) feet to any side street line.

(b) No dwelling shall be located nearer than 8 feet to any interior lot line, except that a one-foot minimum side yard shall be permitted for a garage or other permitted accessory building located 45 feet or more from the minimum front building setback line. No dwelling shall be located on any interior lot nearer than 15 feet to the rear lot line.

(c) For the purpose of this covenant, eaves, steps, and open porches shall not be considered as part of a building provided however, that this shall not be construed to permit any portion of any building on a lot to encroach upon another lot.

5. Lot Area and Width. No dwelling shall be erected or placed on any lot having a width of less than 80 feet at the minimum building setback line nor shall any dwelling be erected or placed on any lot having an area of less than 10,000 square feet, except that a dwelling may be erected or placed on all corner and cul-de-sac lots as shown on the recorded plat, provided that the above front and side yard are maintained. No lot may be redivided for the purpose of creating any additional building sites.

6. Easement. Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and over the rear 7.5 feet of each lot. Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

7. Nuisances. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may become an annoyance or nuisance to the neighborhood. No clothes drying or storage of any articles which are unsightly in the opinion of the Architectural Control Committee will be permitted, unless in enclosed area designed for such purpose. No automobiles, trailers, boats, or other vehicles are to be stored on streets or front or side lots unless they are in running condition, properly licensed and are being regularly used.

8. Temporary Structures. No structure of a temporary character, trailer, basement, tent, shack, garage, barn or other outbuildings shall be used on any lot at any time as a residence either temporarily or permanently. No mobile homes are permitted.

9. Signs. No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot, one sign of not more than five square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sales period.

10. Livestock and Poultry. No animals, livestock, or poultry of any kind shall be raised, bred or kept on any lot, except that dogs, cats or other household pets may be kept provided that they are not kept, bred or maintained for any commercial purpose and are restricted to the owner's premises or on lease under handler's control.

11. Garbage and Refuse Disposal. No lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage or other waste

BOOK 4939 PAGE 943

shall not be kept except in sanitary containers. All incinerators or other equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition. Each lot and its abutting street are to be kept free of trash, weeds and other refuse by the lot owner. No unsightly materials or other objects are to be stored on any lot in view of the general public.

12. Sight Distance at Intersections. No fence, wall, hedge, or shrub planting which obstructs sight lanes at elevations between two and six feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points 25 feet from the intersection of the street lines or in case of a rounded property corner from the intersection of the street property lines extended. The same sight-line limitation shall apply on a driveway or alley pavement. No tree shall be permitted to remain within said distance of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

13. Oil Mining Operations. No oil drilling, oil development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained, or permitted upon any lot.

14. Landscaping. Trees, lawns, shrubs, or other plantings provided by the developer shall be properly nurtured and maintained or replaced at the property owner's expense upon request of the Architectural Control Committee.

15. Slope and Drainage Control. No structure, planting or other material shall be placed or permitted to remain or other activities undertaken which may damage or interfere with established slope ratios, create corrosion or sliding problems, or which may change the direction of flow of drainage channels or obstruct or retard the flow of water through drainage channels. The slope control areas of each lot and all improvements in them shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

PART C. ARCHITECTURAL CONTROL COMMITTEE

1. Membership. The Architectural Control Committee shall be composed of Dave Tolman, Michael R. Holmes and Merrill Turnbow, and one other member to be appointed by the aforementioned members. A majority of the Committee may designate a representative to act for it. In the event of death or resignation of any member of the Committee, the remaining members of the Committee shall have full authority to select a successor. Neither the members of the committee, nor its designated representative, shall be entitled to any compensation for services performed pursuant hereto. At any time, the then record owners of a majority of the lots in said subdivision shall have the power, through a duly recorded written instrument, to change the membership of the Committee or to withdraw from the Committee or to restore to it any of its powers and duties.

2. Procedure. No building, outhouse, garage, fence wall, retaining wall, or other structure of any kind shall be added, erected, constructed, placed or maintained on said real property, or any part thereof, nor shall there be any change made to the exterior of improvements on the property by way of alteration, addition, repairing, remodeling, or adding, unless, prior to the commencement of any construction, excavation, or other work, two (2) complete plans and specifications thereof, including front, side and rear elevations and floor plans for each floor and basement, color scheme thereof, and two (2) plot plans indicating and fixing the exact

location of such structure, or such altered structure, on the lot with reference to the street and side lines thereof shall have been first submitted in writing for approval and approved in writing by the Architectural Control Committee.

In the event said committee, or its designed representative, fails to approve or disapprove such design and location within 30 days after said plans and specifications have been submitted to it, or, in any event, if no suit to enjoin the erection of such building or the making of such alterations has been commenced prior to the completion thereof, such approval will not be required and this covenant will be deemed to have been fully complied with. It is the intent of these restrictions to define the name "committee" wherever it appears in these restrictions, to mean the Architectural Control Committee referred to in Part C hereof.

PART D. GENERAL PROVISIONS

1. Term. These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of forty years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of ten years unless an instrument signed by a majority of the then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

2. Enforcement. Enforcement shall be by proceeding at law or in equity against any person or persons violating or attempting to violate any covenant either to restrain violation or to recover damages.

3. Severability. Invalidation of any one of these covenants by judgment or court order shall in no way affect any of the other provisions which shall remain in full force and effect.

4. Amendment. The provisions of these covenants may be amended by a majority of two-thirds of the owners of record of the lots.

RESIDENTIAL PROPERTIES, INC.

By Merrill Turnbow Vice Pres

ACKNOWLEDGEMENT

STATE OF UTAH)
) : ss.
COUNTY OF SALT LAKE)
