The only building or structure permitted to be erected, placed or permitted to be located on any lot within the subdivision shall be a detached single family dwelling not to exceed two stories in height, with an enclosed private garage for not less than two (2) nor more than five (5) automobiles. The easement area of each lot and all improvements in it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible. The title holder of each lot shall from time to time grant rights over, across, on, under and upon these easements for such additional uses and services as may be provided from time to time by a public authority or private utility company.

8. TEMPORARY OR OTHER STRUCTURES No structure of a temporary nature, and no trailer, bus, basement, outhouse, tent, shack, garage, or other outbuilding shall be used at any time as a residence either temporarily or permanently, nor shall any such structures be erected or placed on said property at any time except a temporary sales office used by the Developer for the purpose of sales during a development, construction or sales period. 12. LIVESTOCK, POULTRY, AGRICULTURE No animals, livestock, or poultry of any kind shall be raised, bred, or kept on any lot, part or portion of the Property, except that dogs, cats and other domesticated household pets may be kept in a residence constructed on a lot, provided that they are not kept, bred, or maintained for any commercial purpose. Such animals as are permitted shall be strictly controlled and kept pursuant to all applicable laws and ordinances. No outside dog houses or dog runs are allowed.

13. GARBAGE AND PLUMSE DISPOSAL No lot, part or portion of the Property, shall be used or maintained as dumping ground for rubbish, rubble, trash, garbage or other waste. Such trash, rubbish, rubble, garbage or other waste shall not be kept except in sanitary containers. 19. SAFE CONDITION Without limiting any other provision or this declaration, each owner shall maintain and keep such owner's lot at all times in a safe, sound and sanitary condition and repair and shall correct any condition or refrain from any activity which might interfere with the reasonable enjoyment by other owners of their respective lots.

20. SIGHT DISTANCE AT INTERSECTIONS No structure, wall, hedge or shrub planting which obstructs sight lines at elevations between four (4) and six (6) feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points twenty-five (25) feet from the intersection of the street lines, or in the case of a rounded property corner from the intersection of the street property lines extended. The same sight line limitations shall apply on any lot within the (10) feet from the

intersection of a street property line with the edge of a driveway or pavement. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at such height to prevent obstruction of such sight lines.

21. LANDSCAPING: Within four (4) months after the completion of construction of any home upon a lot, the owner of such lot must have substantially completed the landscaping of such lot, in accordance with a detailed landscaping plan previously approved by the Architectural Control Committee as provided in Section 8 of Article II below. Such landscaping shall include but shall not be limited to the preparation for and planting of lawn, grass or other appropriate ground cover, appropriate shrubbery, and planting of at least two (2) trees in the front yard. No healthy tree shall be removed from any lot prior to the written approval of the Architectural Control Committee of the landscaping plan for such lot, unless the Architectural Control Committee shall have approved of such removal. No healthy tree shall be removed from any lot after the completion of the approved landscaping thereof, nor shall other major landscaping changes be made, without the prior written approval of the Architectural Control Committee. Notwithstanding this section, all diseased trees must be removed by the lot owner within one hundred-twenty (120) days after the diseased condition is discovered or after receipt of notification issued by the Architectural Control Committee demanding removal thereof. All diseased and other trees removed from any lot, part or portion of the Property shall be replaced by the lot owner by the planting of an equivalent number of trees of the same species upon such lot. All trees planted by a lot owner pursuant to the requirements of this paragraph shall be a minimum size of two and one half inches (2 1/2") caliper measured at a point one foot (1') above ground level.
