RULES AND REGULATIONS OF THE  
SLICKROCK RIDGE  
ARCHITECTURAL CONTROL COMMITTEE

While the controls exercised by the Architectural Control Committee (hereafter referred to as the "Committee") must be maintained, the Committee does not intend to stifle innovative designs or architectural freedom. If any design elements of a prospective home appear to be in conflict with the controls or recommendations set forth, such conflicts must be resolved by the Committee and will, whenever possible, be resolved in favor of aesthetic and design quality.

The guidelines and restrictions contained herein are consistent with the provisions of the recorded covenants of SLICKROCK RIDGE subdivision. The protective covenants for SLICKROCK RIDGE are on record in the office of the Recorder, Washington County, Utah, at 197 East Tabernacle, St. George, Utah. Any violations of these guidelines, or the restrictions or protective covenants may result in required changes to floor plans, colors, materials, etc. at the owner's and/or contractor's expense.

No construction may begin in SLICKROCK RIDGE without the issuance of a building permit issued by the City of St. George building inspector. A set of drawings and specifications with SLICKROCK RIDGE Architectural Committee signatures must be presented to the building inspector to obtain a permit. This stamp of approval will be given upon compliance with all provisions stated in the protective covenants and conditions and these rules and regulations and by execution of the final agreement page of these rules by the owner and/or contractors legally responsible for the project.
