### AVIGATION EASEMENT

Avigation Easement affecting county tax parcel number 08-14-300-010-0000.

ROCKY MOUNTAIN FABRICATION, INC., hereinafter referred to as "Grantor," hereby grants and conveys to SALT LAKE CITY CORPORATION, hereinafter referred to as "Grantee," for good and valuable consideration given by the Grantee to the Grantor in the form of Grantee's approval of the development of Grantor's land by memorializing an existing prescriptive common law avigation easement associated with the Airport and aircraft activities in and around the Salt Lake City International Airport, the receipt and sufficiency of which is hereby acknowledged, a perpetual and assignable easement in the airspace above and over the parcel of land described in Exhibit "A," attached hereto and by this reference incorporated herein, hereinafter referred to as the "Real Property," for the free and unrestricted passage of aircraft of any and all kinds now or hereafter developed for the purpose of transporting persons or property through the air, in, through, across and about the airspace over the Real Property, and all other aeronautical activities therein. The airspace shall mean that space above the Real Property which is above the height limit established for the Salt Lake City International Airport by the Revised Ordinances of Salt Lake City, which for the Real Property is that

space above the flat plain 4,450 feet mean sea level, as determined by U.S.G.S. datum coterminous with the boundaries of the Real Property (hereinafter referred to as the "Airspace").

Said easement is granted under the condition that civil aircraft yearly average noise level does not exceed 75 LDN for Zone B and 65 LDN for Zone C as those zones are described in Figure 3-1 of the Salt Lake City International Airport Land Use Policy Plan dated August, 1982, as amended from time to time, which may be obtained from the Salt Lake City Airport Authority (hereinafter referred to as the "Plan"), or the equivalent to 65 LDN or 75 LDN, as appropriate, if a designation other than LDN is adopted by the U.S. Federal Government and is recognized as the generally accepted environmental noise descriptor, in which case the alternate equivalent designation shall apply. Zone A, as described in the Plan, shall not be restricted to any maximum yearly average noise level. During any period the maximum yearly average noise level was exceeded on any portions of the Real Property by civil aircraft within Zone B or Zone C, this easement shall be inoperative solely with respect to the levels of noise exceeding the maximum level authorized for said portions. However, on all other portions of the property where it cannot be proven that the authorized noise levels have been exceeded, this easement shall remain in full force and effect.

Grantor further agrees that the easement and rights hereby granted to the grantee in the Airspace above and over the Real Property are for the purpose of

insuring that the Airspace shall remain free and clear for the flight of aircraft landing at or taking off from or otherwise using the Salt Lake City International Airport described in Exhibit "B" attached hereto, and by this reference incorporated herein, (hereinafter referred to as "Airport"). Said easement and the rights appertaining thereto shall be for the benefit of Grantee, its successors, assigns, guests, invitees, including any and all persons, firms or corporations operating aircraft to or from the Airport. In perpetuity, said easement and the burden thereof, together with all things which may be alleged to be incidental to or to result from the use and enjoyment of said easement, shall constitute permanent burdens and servient tenements on the Real Property, and the same shall run with the land and be binding upon and enforceable against all successors in right, title or interest to said Real Property and shall be unlimited as to frequency.

Grantor agrees that it, its heirs, successors and assigns shall not hereafter erect or permit the erection or growth of any object within the Airspace. This easement grants the right of flight for the passage of aircraft in the Airspace, together with the right to cause or create, or permit or allow to be caused or created in the Airspace, and within, above and adjacent to the Real Property, such annoyances as may be inherent in, or may arise or occur from or during the operation of aircraft subject to the noise limitations described above.
