Between

OREGON SHORT LINE RAILROAD COMPANY
UNION PACIFIC RAILROAD COMPANY

and

M. B. MANN

Drain Pipe Line Crossing

at

Woods Cross, Utah

THIS AGREEMENT, made and entered into this 20th day of January 1938, by and between OREGON SHORT LINE RAILROAD COMPANY, a corporation of the State of Utah, and its Lessee, UNION PACIFIC RAILROAD COMPANY, a corporation of the State of Utah, (hereinafter collectively called "Railroad Company"), parties of the first part, and M. B. MANN, an individual of Woods Cross, Davis County, Utah, (hereinafter called "Licensee"), party of the second part, WITNESSETH:

WHEREAS, the Licensee desires to construct and thereafter maintain and operate a water pipe line (hereinafter called "pipe line") extending underground across the

right of way and underneath the roadbed and track of the Railroad Company at Mile Post 0.10, of Cannery Spur No. 7, at Woods Cross, Davis County, Utah, in the location described as follows, to-wit:

Beginning at a point in the Southerly right of way boundary 7.5 feet perpendicularly distant from the center line of the present operated Spur Track No. 7 of the Railroad Company at Engineer's Station 5 plus 65.6; thence along the center line of a four inch diameter Vitrified Tile sewer pipe line 15 feet Northerly to a point in the Northerly right of way boundary 7.5 feet perpendicularly distant from center line of said spur track at Engineer's Station 5 plus 65.6. Said sewer pipe line is to cross said center line at an angle of 90°00' thereto at Engineer's Station 5 plus 65.6, which is 908.1 feet Northerly measured along said center line of spur track and main line track from its intersection with the South line of Section 24, Township 2 North, Range 1 West, Salt Lake Meridian, substantially in the location indicated by a yellow line on the attached print, dated December 30, 1937, marked Exhibit "A" and hereby made a part hereof.

IT IS THEREFORE AGREED, by and between the parties hereto as follows, to-wit:

1. RAILROAD COMPANY GRANTS RIGHT TO LICENSEE:

The Railroad Company does hereby grant unto the Licensee the right to construct and thereafter, during the term hereof, to maintain and operate the said pipe line in the location hereinbefore described, which grant is made expressly subject to the observance and performance by the Licensee of all and singular the conditions, covenants and agreements hereinafter contained to be by the Licensee kept, observed and performed; it being hereby stipulated that a waiver by the Railroad Company of any breach of any such conditions, covenants and agreements shall in no way impair the right of the Railroad Company to avail itself of any subsequent breach thereof.

2. SIZE AND KIND OF PIPE:

The said pipe line where it crosses underneath the said roadbed and track shall be constructed of fifteen (15) feet of vitrified tile sewer pipe with an internal diameter of four (4) inches and the same shall be constructed and maintained at such an elevation that the top thereof shall not be less than 3.0 feet below the base of the rails of said track.

3. LICENSEE TO BEAR ENTIRE EXPENSE:

The Licensee shall bear the entire cost and expense in connection with the construction, maintenance, repair or renewal of said pipe line, including any and all expense which may be incurred by the Railroad Company in connection therewith for supervision, inspection, or otherwise; but all the work upon the same within the limits of the right of way of the Railroad Company shall be done under the direction of and according to the plans and specifications approved by the Railroad Company.

4. PERMIT SUBJECT TO NEEDS OF RAILROAD COMPANY:

The Railroad Company notwithstanding the aforesaid grant shall have the right to retain its existing track at and in the vicinity of said pipe line in present location, and nothing shall be done or suffered to be done by the Licensee at any time that shall in any manner impair the usefulness or safety of such track, or of any other tracks that may hereafter be constructed within the limits of said right of way; and the Railroad Company reserves and shall have the right at any and all times to make such changes in said existing track and structures, or in the present standards thereof, and to construct, maintain and operate such additional tracks or structures where said pipe

line is to be constructed, and across the same, as from time to time it may elect; and the Licensee shall bear the expense of moving, removing or making such modifications in said pipe line as may be required by the Railroad Company in connection with such changes in said track and structures, or in the present standard thereof, and such additional tracks or structures. The obligation of the Licensee in this agreement prescribed with reference to the maintenance, repair and renewal of said pipe line as originally constructed shall apply to said pipe line as relocated, changed or modified within the contemplation of this section.

5. PIPE LINE NOT TO INTERFERE WITH OPERATION OF RAILROAD:

The said pipe line and all parts thereof within and outside of the limits of the right of way and premises of the Railroad Company, shall be constructed and at all times maintained, repaired, renewed and operated by the Licensee in such a manner as to cause no interference whatsoever with the constant, continuous and uninterrupted use of the tracks, property and premises of the Railroad Company, both as regards operation, maintenance, repairs of renewals, or possible new construction by the Railroad Company.

6. SALE OF RIGHT OF WAY:

In the event the Railroad Company shall dispose of any portion of its property on which the pipe line is located as herein provided, the right or license herein granted, with respect to such portion of the pipe line as may be located on the property of the Railroad Company so disposed of, shall forthwith cease and determine.

7. LIABILITY:

The Licensee shall indemnify and hold harmless the Railroad Company from and against any and all damages, claims, demands, actions, causes of action, costs and expenses of whatsoever nature which may result from the death of or injury to any person whomsoever, or from the loss of or damage to property of any kind or nature, including damage to the roadbed, tracks, equipment or other property of the Railroad Company, when such death, injury, loss or damage is due to the existence of said pipe line or to the construction, maintenance, operation, repair or renewal, thereof, or to the contents therein or therefrom.

8. DISUSE OF PIPE LINE:

Disuse of said pipe line for the purpose for which it was originally constructed continuing at any time for a period of one year, shall constitute an abandonment thereof by the Licensee and of the grant herein made, and in case of such an abandonment or the breach by the Licensee of any of the conditions, agreements and covenants herein contained, the Railroad Company shall have the right to terminate this agreement at any time by giving thirty (30) days notice in writing to the Licensee of its intention to terminate the same, and at the expiration of said thirty (30) day notice the license herein granted shall terminate and be at an end, and the Licensee shall be without recourse or redress of any character against the Railroad Company by reason thereof.

9. REMOVAL OF PROPERTY OF LICENSEE:

Within fifteen (15) days after the termination of this agreement however, the Licensee shall remove all property of the Licensee herein provided for from that portion of the right of way of the Railroad Company not occupied by the said roadbed and tracks, and shall restore the same to its original condition to the satisfaction of the Railroad Company; and if the Licensee fails so to do the Railroad Company may do such work of removal and restoration at the cost and expense of the Licensee. The Rail-

road Company may, at its option, upon such termination, at the entire cost and expense of the Licensee, remove that portion of said pipe line located underneath said roadbed and tracks and restore said roadbed to its original condition, or it may permit the Licensee to do such work of removal and restoration under the supervision of the Railroad Company; and in the event of the removal by the Railroad Company of the property of the Licensee as herein provided; and of the restoration of said roadbed and right of way to their former condition, the Railroad Company shall in no manner be liable to the Licensee for any damage sustained by the Licensee for or on account thereof, and such removal and restoration shall in no manner prejudice or impair any right of action for damages or otherwise that the Railroad Company may have against the Licensee.

10. AGREEMENT NOT TO BE ASSIGNED:

The Licensee shall not assign this agreement or any of the rights hereunder without the consent, in writing, of the Railroad Company first had and obtained.

11. EFFECTIVE DATE:

This agreement shall be effective from and after the day and date first hereinabove written and shall continue in full force and effect until terminated as provided, and all of the covenants, agreements and conditions herein contained on the part of the Licensee to be kept, observed and performed shall attach to and run with the system of which said pipe line is a part.

12. SUCCESSORS AND ASSIGNS:

This agreement shall be binding upon and inure to the benefit of the Railroad Company, its successors and assigns, the Licensee and the successors in interest of the Licensee.

13. RENTAL

The Licensee shall pay as rental for the term hereof, the sum of Five Dollars (\$5.00), payable to the Union Pacific Railroad Company in advance.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed on the day and year first herein written.
