All of BlackRock Condominiums at Stonebridge, Phase 1, Amended and Extended, according to the official plat thereof on file in the Office of the Washington County Recorder, affecting the property more particularly described in Exhibit B attached hereto and incorporated herein by this reference.

**Article 2, Section 2.1 of the Declaration is hereby amended to read as follows:**

Section 2.1. Division into Units, Limited Common and Common Area. In order to establish a plan of condominium ownership, the condominium project is hereby divided into the following separate free-hold estates:

- a. Units. The twenty-eight (28) separately designated and legally described freehold estates consisting of the units as defined above and designated on the map. Each unit consists
  - i. horizontally of the area within the interior surface of the sheet rock on walls which form the exterior of the building, and the lines as drawn on the map as constituting boundaries between the unit and

- common or limited common areas or between the unit and other units, and
- ii. vertically from the exterior surface of the floor of the unit up to the interior surface of the ceiling. Mechanical equipment and appurtenances located within any one unit or located without said unit but designated and designed to serve only that unit, such as appliances, electrical receptacles and outlets, air conditioning and compressors and other air conditioning apparatus, fixtures and the like, shall be considered part of the unit, as shall all decorated interiors, all surfaces of the interior structural walls, floors and ceilings, windows and window frames, doors and door frames, and trim consisting of, inter alia and as appropriate, wallpaper, paint, flooring, carpeting and tile. All pipes, wires, conduits, or other public utility lines or installations constituting a part of the unit and serving only the unit, and any structural members of any other property of any kind, including fixtures and appliances within any unit, which are removable without jeopardizing the soundness, safety or usefulness of the remainder of the building within which the unit is situated shall be considered part of the unit.

The maximum number of units which may be built is 116 which would result in at least a .4% minimum ownership interest in the common elements for the smaller units. The minimum number of units which may be built is 28 which would result in a 2.5% minimum ownership interest in the common elements.

Appurtenant to and inseparable from each unit shall be a percentage ownership in common areas and facilities and a par value according to the following table:

These par values may not be changed except by amendment or expansion as provided herein. No unit may be further subdivided. No unit owner shall execute any deed, mortgage, lease or other instrument conveying, leasing or encumbering title to the unit without including therein all interests appurtenant thereto. The purpose of this restriction is to prevent any severance of such combined ownership. Any such deed, mortgage or other instrument purporting to affect one or more of such interests, without including all such interests, shall be deemed to include any omitted interest, even though not expressly mentioned or described therein. Each unit owner has an unrestricted right of ingress and egress to the unit which is appurtenant to ownership of the unit.

Units may be combined in use if owned by the same unit owner.

- b. Limited Common Areas. Limited Common Areas, if any, designated on the map, by double cross hatched areas may include carports, balconies, decks and covered decks appurtenant to certain units as contained in the Plat. The right to use and occupy each limited common area, if any, shall be appurtenant to and shall pass with the title to the unit with which it is associated, to the exclusion of other owners. Each owner of a unit is hereby granted a license to use and occupy the limited common areas and facilities reserved for the use of the unit, subject to the residual rights of the Association therein.
- c. Common Areas and Facilities. A freehold estate consisting of the remaining portion of the real property as defined above as the "common areas and facilities." Every owner shall have a right and easement of use and enjoyment in and to the common area which easement shall be appurtenant to and shall pass with the title to every unit, subject to the following provisions:
- (i) The right of the Association to charge reasonable admission and other fees for the use of any recreational facility situated upon the common area.
  - (ii) The right of the Association to limit the number of guests of members using the common area.
  - (iii) The right of the Association to suspend the voting rights and/or common utility service of a member for any period during which any assessment or portion thereof against the unit remains unpaid; and for any infraction of its published rules and regulations.
  - (iv) The right of the Association to enter into agreements or leases which provide for use of the common areas and facilities by a similar Association in consideration for use of the common areas and facilities of the other Association, or for cash consideration;

- (v) The right of the Association with the approval of seventy-five percent (75%) of each class of owners to sell, exchange, hypothecate, alienate, mortgage, encumber, dedicate, release or transfer all or part of the common area to any private individual, corporate entity, public agency, authority, or utility.
- (vi) The right of the Association to grant easements for public utilities or other public purposes consistent with the intended use of the common area by the Association.
- (vii) The right of the Association to take such steps as are reasonably necessary or desirable to protect the common area against foreclosure.
- (viii) The terms and conditions of this Declaration.
- (ix) The right of each individual unit owner to the use of the limited common area adjacent and appurtenant to the respective unit.
