ACCESS & UTILITY EASEMENT AGREEMENT

THIS ACCESS AND UTILITY EASEMENT AGREEMENT ("Agreement") is made and entered into JULY 1st 2020 (the "Effective Date"), by and among **THOMAS D. REES** and **EVA MILLER** (f/k/a Eva Rees) (collectively, "Grantor"), and **WOHALI PARTNERS LLC**, a Utah limited liability company (the "Grantee"). Grantor and Grantee are sometimes referred to individually as a "Party" and collectively as the "Parties."

A. Grantor is the owner of those certain parcels of real property located in Summit County, Utah (collectively, the "Grantor Property"), more particularly described on the attached **Exhibit A**.

B. Grantee is the owner of those certain parcels of real property located in Summit County, Utah (collectively, the "Grantee Property"), more particularly described on the attached **Exhibit B**.

C. The Parties have agreed to enter into this Agreement in order to provide access and utility use of the Access Easements and Utility Easement Area (defined below) for the benefit of the Grantee Property, in accordance with the terms of this Agreement.

NOW, THEREFORE, in consideration of the mutual promises set forth herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **Access Easement** Grantor hereby conveys and grants to Grantee, its successors and assigns, the following perpetual, non-exclusive and continuous easements and rights-of-way over, upon, and across the Grantor Property: (a) Primary Access Road; (b) Secondary Access Road; (c) Temporary Construction Access Roads and (d) West Loop Access Road (collectively, the "Access Easements"), subject to the specific provisions set forth below in this Agreement. The Access Easements, with metes and bound descriptions are identified on **Exhibit C** attached hereto. The sole purpose and scope of the Access Easements are vehicular and pedestrian ingress and egress to and from the Grantee Property, and improvement and maintenance of the Access Easements. Subject to temporary closures for construction (including the Grantee construction described below), repair and maintenance, for traffic regulation and control, or to prevent public

dedication of the Access Easements (unless Grantor elects to dedicate the Access Easements as a public right-of-way), the Grantee agrees and covenants that its use of the Access Easements will not interfere with Grantor's use and enjoyment of the Access Easements or the Grantor Property, respectively. No Party will park vehicles or locate other obstructions or allow others to park vehicles or locate other obstructions, on the Access Easements or Utility Easement Area. For the sake of clarity, Wohali intends to use the Access Easements as a means of access to the Wohali Property as set forth in this Agreement.

2. **Primary Access Road.** The Primary Access Road shall be built to Coalville City standards but in no case shall exceed a width of (60) feet.

3. **Secondary Access Road.** The Secondary Access Road shall be installed with asphalt or other permanent surfacing, as required by Coalville City Code requirements. The Secondary Access Road right-of-way shall not exceed a width of fifty (50) feet wide, however, the road surfacing shall not exceed a width of twenty-four (24) feet. Use of the Secondary Access Road shall be strictly limited to emergency purposes only. Grantee shall install two (2) crash gates where indicated on **Exhibit C**, which sole purpose shall be to prohibit non-emergency ingress and egress vehicular and pedestrian access on the Secondary Access Road. The two crash gates shall be approved by the governing fire authority. Grantor shall retain all other non-exclusive rights on, over, under, and across the Secondary Access Road area, including the grazing of cattle and other farm activities, as further set forth in this Agreement.

4. **West Loop Access Road.** The West Loop Access Road shall be built to Coalville City standards but shall not exceed a width of (60) feet and shall enter into Summit County parcel NS-282 before entering onto Grantee's Property. Grantee is solely responsible for all discussions, and procurement of any necessary easements or agreements with the owner of Summit County parcel NS-282.

5. **Temporary Construction Access Roads.** Temporary Construction Access Road 1 and Temporary Construction Access Road 2 (collectively, the "Temporary Construction Access Roads") shall be installed with gravel or other all-weather road base only and without any permanent improvement surfacing, including but not limited to asphalt or concrete surfacing. The Temporary Construction Access Roads shall be used solely for construction purposes for ingress and egress vehicular and pedestrian access to the Grantee Property. Unless otherwise agreed to, in a signed writing by the Parties, and notwithstanding anything to the contrary in this Agreement, Grantee's use of Temporary Construction Access Road 1 shall terminate upon the later of (a) Grantee's completion of the "short course" golf facilities or (b) December 31, 2024. Grantee's use of Temporary Construction Access Road 2 shall only be for large-sized loads and shall be subject to Grantee obtaining Grantor's consent prior to each such use; provided, however, Grantor shall not unreasonably withhold, condition or delay its consent. Unless otherwise agreed to, in a signed writing by the Parties, and notwithstanding anything to the contrary in this Agreement, Grantee's use of Temporary Construction Access Road 2 shall terminate upon the later of (a) completion of development on the Grantee Property or (b) December 31, 2024. In no way shall Grantee's use of the Temporary Construction Access Roads be determined to be adverse, in any way, to Grantor's interests in the same, and in no way shall be the basis for a subsequent action by Grantee, or its successors-in-interest, for any equitable claim to any portion of Grantor's property.

Grantee is responsible for any and all damage caused by Grantee to the Temporary Construction Access Roads as a result of Grantee's use of the same, including but not limited to ruts, vegetation damage, or any other damage that may result from Grantee's use. Upon termination of Grantee's use of the Temporary Construction Access Roads, Grantee shall restore such ruts or other damage and revegetate the area disturbed by the Temporary Construction Access Roads, including but not limited to removal of the all-weather road base or any permanent improvement surfacing, including but not limited to asphalt or concrete surfacing.

6. **Utility Easement.** Grantor hereby conveys and grants to Grantee a non-exclusive, permanent easement over, upon, and across the Grantor Property, within the Primary Access Road, and the West Loop Access Road, and within ten (10) feet limited to one side of the road (only of such roads, such side to be chosen by the Grantee (collectively, "Utility Easement Area"), for the installation, construction, maintenance, use, repair, replacement, and removal of underground utility lines and facilities as may be necessary or appropriate, as determined by Grantee in its sole discretion, together with a right of access to the Utility Easement Area, including the surface or any portion of the Utility Easement Area, to exercise the foregoing rights. The specific location and description of such utility lines and facilities within the Utility Easement Area shall be determined by Grantee in its sole discretion. Nothing in the Section 6 is intended to grant Grantee any rights to install any utilities on, under, or adjacent to the Secondary Access Road.

7. **Improvement of the Easement Area.** Grantee, at its sole cost and expense, shall have the right to construct the roads for the Access Easements, as identified in **Exhibit C**, and utility improvements on, in over and under the Utility Easement Area (the "Improvements") consistent with the terms, conditions, and restrictions, as set forth in this Agreement. In connection with the Improvements, the Parties agree to cooperate and coordinate with each other in good faith and without unreasonable condition or delay. In this regard, Grantor shall, within ten (10) calendar days, respond to Grantee's written communications regarding Grantee's requests for the following: (i) to modify or reconfigure the location of the Access Easements roads and Utility Easement Area; (ii) to accommodate any reasonable changes in the final Improvements; (iii) to respond to any reasonable requests for information or meetings related to the development of the Access Easements roads and Utility Easement Area; and (iv) to execute and return all such agreements or documents necessary for Grantee to construct the Improvements in the Access Easements roads and Utility Easement Area. Notwithstanding, Grantee's requests shall be reasonably consistent with the terms of this Agreement. Notwithstanding, while Grantor agrees to work in good faith with Grantee to effectuate the intent of this Agreement, Grantor reserves the right to deny any of Grantee's request to relocate or alter the locations of the Access Easement roads and Utility Easement Area, in a way which constitutes a material detriment to Grantor determined in Grantor's reasonable discretion.

8. **Existing Utilities, Easements, and Rights-of-Way.** Grantee acknowledges that multiple existing utility easements and rights-of-way currently exist over, under, through, and across the Grantor Property ("Existing Easements"), whether or not any actual utility lines have been installed on Grantor's Property as of the Effective Date. Grantee agrees that Grantee's rights, as set forth herein, are subservient to the Existing Easements, and that Grantee accepts the Access Easements and Utility Easement Area subject to the Existing Easements. Grantor is not responsible, in anyway, for any of the Existing Easements that may conflict or frustrate Grantee's

objectives, as set forth in this Agreement, or which may cause Grantee to remove, alter, abandon, or replace any construction or installation of the Easement Access roads and utilities in the Utility Easement Area.

9. **Maintenance.** Although Grantor maintains full, non-exclusive use (for vehicular, farm equipment and pedestrian ingress and egress purposes) to the area of the Access Easements, Grantor will not make any use of the Access Easements and Utility Easement Area that interferes with the rights granted to Grantee under this Agreement. Grantee, at its sole cost and expense, will maintain and repair the Access Easements and Utility Easement Area. Notwithstanding, consistent with Section 11 of this Agreement, Grantee acknowledges that, at times, the Grantor Property is subject to agricultural leases, including but not limited to the grazing of cattle and other livestock, and that Grantor is not responsible, in any way, for the removal of any manure or other naturally caused droppings resulting from said livestock and in no way controls or is responsible for the presence of livestock on the Access Easement roads. Grantee's maintenance shall include, but is not limited to snow removal, repairs, improvements, replacement, removal and cutting of native shrubbery and grasses, repairs and re-structuring of sub-surface beneath the Access Easements as required for construction of the Improvements, mitigation of weather-related damage, removal of rocks or debris, and damage caused as a result of Grantee's repair, replacement, or expansion of any utilities.

10. **Indemnification.** Each Party shall indemnify, defend and hold harmless the other Parties and their affiliates, members, managers, agents, tenants and representatives for, from and against all claims, damages, expenses (including, without limitation, reasonable attorneys' fees and reasonable investigative and discovery costs), liabilities and judgments on account of injury to persons, loss of life, or damage to property resulting from the negligent or willful act or omission of the indemnifying Party or its permittees, arising out of the performance of any of the obligations set forth in this Agreement, the indemnifying Party's use of the Access Easements and Utility Easement Area, or the indemnifying Party's breach of this Agreement, except to the extent such claims are due solely to the gross negligence or willful act or omission of the would-be indemnified Party or its permittees. Grantee shall indemnify, defend, and hold harmless Grantor for, from, and against all claims, damages, expenses (including, without limitation, reasonable attorneys' fees and reasonable investigative and discovery costs), liabilities and judgments related to the Existing Easements, arising out of Grantee's interference, if anyway, with the Existing Easements. Grantee shall indemnify, defend, and hold harmless Grantor for, from, and against all claims, damages, expenses (including, without limitation, reasonable attorneys' fees and reasonable investigative and discovery costs), liabilities and judgments related to Grantee's construction of the roads and or utilities in the Access Easement roads and Utility Easement Area, respectively, including any local, state, or federal violation caused by Grantee or resulting from Grantee's work on or adjacent to the Grantor Property. The obligations of this section shall survive the termination of this Agreement.

11. **Agriculture Acknowledgement.** Grantee acknowledges that the Grantor operates in the agriculture industry, which includes but is not limited to the grazing of cattle, and other activities relating to the cultivation and harvesting of crops, etc. Any of the Access Easements or activity in the Utility Easement Area may not obstruct, impede or hinder these agricultural activities in any way. In the event Grantee places fences or any vegetation in or next to the Access

Easements or Utility Easements, it is entirely the Grantees responsibility to protect its improvements from grazing cattle or any other agricultural activity, including but not limited to necessary crossings for cattle to freely access portions of the Grantor Property on either side of the Access Easements roads and or the Utility Easement Area.

12. **Water Interruption.** Grantee acknowledges that the Grantor's water for culinary and agricultural use for the Grantor Property, including the parcel of real property upon which the Rees residence exists, originates from a free flowing spring on the Grantor Property, which currently exists in close proximity to the Access Easements and Utility Easement Areas. Grantor and Grantee will cause a flow rate study to be prepared in July 2020, October 2020, and January 2021 to determine the seasonal baseline flow rate of Grantor's existing culinary and agricultural water (the "**Baseline Flow Rate**"). If and only if Grantee undertakes drilling or blasting activities in connection with construction of the Improvements, or excavation activities in connection with construction of the Improvements for the Secondary Access Road, then Grantee shall take all reasonable precautions to insure no disruption to the Baseline Flow Rate during construction of the Improvements, and in the event that Grantee's foregoing drilling, excavation, or blasting activities causes a permanent decrease in the Baseline Flow Rate, Grantee agrees to provide supplemental culinary and agricultural water sufficient to achieve the Baseline Flow Rate. Grantee shall only be responsible for permanent decreases in the Baseline Flow Rate occurring during construction of the Improvements as a result of the foregoing drilling, excavation and blasting activities, and not decreases resulting from seasonal flow rate changes.

13. **Water Contamination.** Grantee recognizes and acknowledges that the free flowing spring on the Grantor Property is in close proximity to the Access Easement roads and Utility Easement Area. Consequently, Grantee shall take all reasonable and necessary precautions to prevent and avoid the contamination of the spring water. In the event that Grantee's actions result in the contamination of the spring water, in any form, Grantor shall be solely responsible for either (i) curing such contamination and any damages sustained by Grantor, including but not limited to all costs associated with the cure of the contamination, until a water testing laboratory, chosen by Grantor, determines the water is again safe for human consumption, or (ii) supplying replacement culinary water to Grantor, which option shall be determined by Grantee in its sole discretion.

14. **Lighting.** Grantee agrees that it will not cause any illumination, including the construction, installation and operation of any light poles, on or adjacent to any portion of the Secondary Access Road. Grantee agrees that any lighting required to be installed by Coalville City codes on the Primary Access Road, the West Loop Access Road, the Temporary Construction Access Roads and the Utility Easement Area will not materially interfere with Grantor's use and enjoyment of, or cause material light pollution to, the existing residence on the Grantor Property. Grantee shall also use reasonable and customary methods to prevent headlight pollution from vehicles utilizing the Access Easement roads, which is directed at the residence on the Grantor Property.

15. **Landscaping.** Any landscaping installed on or adjacent to the Access Easements or Utility Easement Area, shall first be approved by Grantor, which approval shall not be unreasonably withheld, conditioned or delayed.

16. **Fence Installation.** Grantee agrees to pay for a new stock fence (including new gates) to be constructed and installed on the Grantor Property as depicted on **Exhibit C** ("New Fence") in similar or better quality to the construction of the currently existing fence. Such construction shall include the removal of the existing fence. At all times during construction of the New Fence, Grantee is solely responsible to provide temporary fencing or other reasonably acceptable means to fully contain livestock. Grantee is responsible to ensure new cattle guards and gates are installed contemporaneously with the construction of the Access Easement roads where the Access Easement roads and Utility Areas cross any fence line on the Grantor Property.

17. **Culinary Water Line.** Grantee acknowledges that the culinary water line ("Culinary Water Line") servicing the residence on the Grantor Property runs, at least in part, under the proposed location of the Secondary Access Road. Grantee agrees that in the event that the Culinary Water Line requires servicing, repair, or replacement due to the active or passive negligent or willful act of Grantee, including but not limited to the construction of the Secondary Access Road, Grantee shall be fully responsible for all repairs, or replacement if necessary, and shall undertake the same as soon as reasonably possible. In the event that the Culinary Water Line requires repair or replacement as a result of any other reason, Grantor shall be responsible for all costs associated with the repair or replacement with the exception of the repair and replacement of any portion of the Secondary Access Road required to be removed as a result of the repair. In the event that Grantor undertakes any work on the Culinary Water Line requiring the disturbance or removal of any portion of the Secondary Access Road, Grantor shall first provide Grantee with written notice of the same at least 72 hours prior to the initiation of such work, unless the repair requires emergency attention.

18. **Approvals.** Grantee is solely responsible for applying for and obtaining any and all local, state, or federal approvals and permits required for the construction and installation of the Access Easement roads and any utilities. Grantor is not responsible for Grantee's failure to obtain any approval required under the terms of this Agreement or the Other Agreements.

19. **Rights Run with The Land.** The easements and covenants referenced herein touch, concern, and run with the land and are binding upon all successors-in-title.

20. **No Public Dedication.** The provisions of this Agreement are not intended to and do not constitute a dedication for public use of the Access Easements roads and the Utility Easement Area, and the rights herein created are for the private use and for the benefit only of the Parties hereto and their successors and assigns.

21. **Notices.** All notices and other communications provided for in this Agreement shall be in writing and shall be personally delivered or mailed by certified or registered U.S. mail, return receipt requested, postage prepaid, or sent by Federal Express or other nationally recognized overnight courier service, and addressed to the respective Party at the address set forth below or at such other address(es) as such Party may hereafter designate by written notice to the other Party as herein provided.

If delivery is refused by the addressee on a business day, then delivery of such notice shall be effective on the date of such refusal by the addressee.

22. **Amendments**. This Agreement may be amended only by recording, in the official records of Summit County, Utah, an instrument in writing reciting such amendment, bearing the acknowledged signatures of Grantor and the Grantee, or their successors and assigns.

23. **Authority**. Each Party, and the individual executing this Agreement below, covenants to the other that he/she has full authority and authorization to enter into this Agreement.

24. **Miscellaneous**. This Agreement may be executed in one or more counterparts, each of which, when taken together, constitutes the original. If any term, provision or condition contained in this Agreement shall to any extent be deemed invalid or unenforceable, the remainder of the Agreement shall not be affected thereby, and each remaining term, provision and condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law. This Agreement, including any Exhibits, shall constitute the entire agreement between the Parties relating to the subject matter of this Agreement.

25. **Attorney's Fees**. In the event any action or proceeding is brought by any party against any other party hereto, the prevailing party shall be entitled to recover attorney's fees and costs in such amount as the court may adjudge reasonable

26. **Interpretation**. This Agreement is made and entered into in the State of Utah and shall in all respects be interpreted, enforced, and governed by the laws of the State of Utah. Any action to enforce this Agreement must be brought in a Utah court of competent jurisdiction and the Parties consent to jurisdiction in the State of Utah.

27. **Partnership**. No part of this Agreement is intended to create a partnership, in any way, between the Parties.
